Passion for Precision

Lapua, or more officially Nammo Lapua Oy and Nammo Schönebeck GmbH, is part of the large Nammo Group. Our main products are small caliber cartridges and components for sport, hunting and professional use.

For decades Lapua has strived to produce the best possible cartridges and components for those who have a passion for precision. The results from various competitions worldwide prove that we are the preferred partner for the champions, everywhere.

This has been achieved by consistent product development and cooperation with top shooters.

The top quality and superior accuracy that are characteristic to all Lapua cartridges are achieved with precise combining of the components. Reliable and timely ignition, optimal muzzle velocity and excellent ballistic properties are the result of well designed and carefully manufactured components. A cartridge can be perfect when all components match together perfectly.

World famous quality

Lapua's world famous quality comes partly from decades of experience, top-quality raw material and a well-managed manufacturing process. Despite the automation in production and quality assurance, our staff personally inspects every lot and, if necessary, even each individual cartridge.

Certified

Nammo Lapua Oy's quality system conforms with both ISO 9001 and AQAP 2110. We have also been awarded the ISO 14001 environmental system certificate.

Part of **Nammo** Group

Lapua .22 rimfire cartridges have earned numerous top competition gold medals and world records. These cartridges have delivered exceptional performance especially in ISSF disciplines, benchrest shooting, biathlon and in 60 shots prone .22 LR competitions. Your selection of the best match ammunition for your firearm is undoubtedly a deciding factor in the most demanding events.

The Golden history of Lapua .22

X-ACT has been tested by most of the world class top shooters, and the comments have been highly complimentary: "The best ammunition I ever shot." X-ACT is true passion for precision.

Lapua started manufacturing the .22 rimfire ammunition just after WWII, in 1947. Lapua ammunition in red, white and blue box became recognized for its accuracy and soon gold medals were shot in both world shooting championships and Olympic competitions. Lapua took its place on .22 rimfire ammunition top level.

Lapua introduced the .22 LR ammunition with a distinctive "blue box" brand, later following such products as Match Grade and Championship, which became world famous for their accuracy and match-winning results. Lapua developed advanced production technology that keeps our quality at an incredibly high level, and made such successful products possible. Lapua was also the first manufacturer that introduced different bullet diameters for the .22 LR to help shooters choose the best bullet size for their firearms.

Future of success

In the 2000's Lapua set next generation standards for the .22 LR match ammunition with the **X-ACT** ammunition that proved to be the most accurate and most uniform .22 rimfire ammunition available.

Lapua has served shooters for more than six decades with the world's best .22 rimfire match ammunition. In future, we look forward to providing you with the same competitive edge that has made your brightest medals a reality.

Lapua supports the world's best shooters as members of the Lapua Team. The members are a valuable information channel for product development. A close interaction with the world's best shooters ensures the highest quality ammunition.

Lapua Team 2015

Kirsten Weiss (USA) was a three-time All-American in smallbore

USA

- Tony Boyer
- Faye Boyer
- Tony Tello
- Steve Reiter
- Brian Zins
- Mark Pharr
- Philip Hemphill
- Kevin Nevius
- Mike Miller

- Evil Roy
- Kirsten Joy Weiss
- Erik Cortina
- Jeff Lindblom
- Francis Kuehl
- Cathy Winstead-Severin
- Shawn McKenna
- Michael Anti
- Stephen Culpepper
- Lisette Grunwell

EUROPE

- Charlotte Jakobsen (DEN)
- Peter Sidi (HUN)
- Raine Peltokoski (FIN)
- Mick Gault (GBR)
- Eva Rösken (GER)
- Josselin Henry (FRA)
- Christian Reitz (GER)
- Kim-Andre Lund (NOR)
- Daniel Rivers (GBR)

2014 NRA Smallbore Prone Champion Kevin Nevius (USA) receiving his award.

Hall of Fame filled with gold

Since 1930, Lapua cartridges have been used to win more than a hundred gold medals in the Olympics and World Championships, as well as to break numerous world records. Shooters who trust Lapua's cartridges are also at the top in demanding military shooting disciplines. Lapua cooperates with competitors in shooting disciplines, both at the cutting edge and at junior level.

Highlights of 2014

Sochi Olympic Games 2014

- Phenomenal success in biathlon again - Lapua takes **32 out of 33 medals** in Sochi, as all teams but one had chosen Lapua .22 LR Polar Biathlon as their competition ammunition

Commonwealth Games 2014, Glasgow, UK

- Gold for Dan Rivers (GBR) in 50 m Rifle 3 Positions Men

ISSF World Cup Rifle / Pistol - Maribor, Slovenia

- Gold for Christian Reitz (GER) in 25m Rapid Fire Pistol Men

Success highlight picks from USA

Tony Boyer

- East-West Nationals – Light Varmint 200 yd. & Light Varmint Grand – (new 2-gun **World Record** 0.1956")
- FISS SuperShoot – Match Winner (new Super Shoot Record 2-gun .2164")

Kevin Nevius

- NRA Smallbore Conventional Prone Championships - 1st Place – National Champion and Anysight Champion

Rimfire Sport Shooting

Lapua manufactures rimfire cartridges with utmost care and precision. Each cartridge is checked individually and all lots are thoroughly tested on ballistic values, gas pressure and grouping. The products are released for distribution only if all test results are within strict tolerance levels.

Official partner of IBU

Lapua promotes the Biathlon sport and works closely with the International Biathlon Union. Of all available 33 biathlon medals in the 2014 Winter Olympic Games in Sochi, 32 were achieved with using Lapua Polar Biathlon ammunition. This high quality ammunition was developed especially for extreme winter conditions.

Rimfire Cartridges

Lapua's long experience in rimfire cartridge manufacturing shows in an outstanding series of medals and world records. Lapua cartridges bring the shooters success in every discipline. The compatibility of the cartridge and the rifle is especially important in prone disciplines.

Lapua's uncompromising approach to quality is probably most evident in rimfire cartridges. Although the quantity of shots fired is high, the marksman must be able to trust every single cartridge to work and hit its target accurately. We also manufacture state-of-the-art rimfire cartridges under the SK brand.

Revolutionary X-ACT

Lapua is proud to present a revolutionary rimfire cartridge, the X-ACT. Customized production methods enabled us create an accuracy level never seen before. The world's best shooters have been testing the ammunition and been amazed by the accuracy results.

No Compromises

Whatever your shooting preference, you will find the right cartridge from our wide selection of .22 rimfire cartridges. These range from the X-ACT, simply the world's most accurate .22 cartridge, to ammunition specifically designed for biathlon sport shooting.

User story

We have found the Center X to be extremely consistent shot to shot, with little difference between different lots of ammunition. Lapua quality gives me the confidence in my ammunition that I need to allow me to focus on the target and hitting that target", says Malory Nichols, Lapua Team USA.

X-ACT

X-ACT has been developed after a long research period to combine the best properties of these materials into the very best ammunition possible. The shooters gain the benefit of absolute accuracy, reliability and consistency in this extremely sophisticated and high quality cartridge. X-ACT has been tested by most of the top world class shooters, and the comments have been nothing but the highest praise: "The best ammunition I ever shot." X-ACT is the very embodiment our absolute passion for precision.

Midas+

Midas+ is the improved generation of Midas. The long success story of Midas brought a lot of excellent results, which have been used for the development of the new generation. Lapua .22 Midas was behind the current 60 shots prone world record and the benchrest long rifle (BR-50) world record.

Center-X

Center-X gives you the confidence of high quality ammunition. Try this versatile cartridge to see its performance.

Pistol King

Pistol King has been loaded for success. It is reliable, provides excellent groups and gives a smooth shooting experience.

Pistol OSP

Pistol OSP is a special ammunition for OSP disciplines. Constant, accurate and precise. All you need.

Polar Biathlon

Polar Biathlon has been behind most biathlon medals worldwide for years. Ideal performance under all conditions with best possible results.

Lapua Service Centers

The rangemaster in Mesa, AZ, USA: Darrell Stettmeier welcomes you!

Lapua offers testing facilities now in Germany, Finland, Norway and USA.

Top shooters recommend ammunition tests in the Lapua .22 Service Center in Germany, equipped with high-tech testing technology. The special cooling chamber provides biathlon shooters an authentic climate to test their equipment also in winter conditions. A wide range of Lapua and SK products will be available for testing. You can test pistols as well as rifles with different devices and find the best ammunition lot for your purposes.

ADDRESS: Lapua Rimfire Service Center, Nammo Schönebeck GmbH, Wilhelm-Dümling-Straße 12, DE-39210 Schönebeck (Elbe)

BOOKING: Tel. +49 3928 729 100, RimfireTestRange@nammo.com

Other locations

RØYKEN, NORWAY

The true professionals, Roy and Vegard, will not only find you the best gun-ammo combination, but also tune your rifle to top notch condition.
