

**OUR PASSION.  
YOUR SUCCESS.**

**NEW!** 

## HIGH VELOCITY MATCH

For discriminating 22 LR shooters that prefer lightning-fast speed, new SK High Velocity Match exits the muzzle at a blistering 1263 feet per second (385 m/s).

Disciplines such as PRS Rimfire, NRL22, and others where every second counts, trust High Velocity Match to strike on-target, with speed and precision. SK's 40 grain round-nose projectile is combined with a proprietary blend of clean-burning, high-energy propellant for reliable functioning in any platform – shot after shot.

**SK High Velocity Match – Arriving Early is Everything!**

## SHOTS THAT HAVE TRAVELLED THROUGH TIME

A 190-year company tradition – making ammunition for hunting and sport. Ammunition has been developed and produced in Schönebeck on the Elbe for 190 years. In 1992, SK Jagd- und Sportmunitions GmbH (now Nammo Schönebeck GmbH) and the Finnish company Lapua Oy merged their expertise regarding the production and development of ammunition. Over the years, numerous successes in national and international competitions were achieved using SK ammunition. As a shooter of SK ammunition, you benefit from many years of experience.

## LONG RANGE MATCH

The **SK Long Range Match** ammunition is designed for demanding rimfire enthusiasts regularly acquiring targets out to 100 yards and beyond. It is purpose-built for today's long range rimfire shooting disciplines increasing in popularity, such as PRC, tactical rimfire, long range silhouette, and more.

**Keep your distance with SK Long Range.**

## SEMI-AUTO RIFLE

SK's "**Semi-Auto Rifle**" is designed to outperform, replace, and eventually retire all other inferior semi-auto ammunition offerings currently crowding the market. It's built to deliver pinpoint accuracy while functioning flawlessly through any 10/22 style firearms, AR's, 597's, 64's, and more.

**Load. Engage Targets. Repeat.**

## RIFLE MATCH

**You want to win.** The SK Rifle Match is a high-performance rimfire cartridge especially developed for rifle shooting in all 50 m disciplines. It is characterized by high reliability and optimal hit performance. Whether the objective is intensive training or a competition, the SK Rifle Match delivers the perfect result. An ambitious shooter can reach any goal with this premium ammunition, manufactured with greatest care and using our top level technologies.

**Convince yourself. Test the SK Rifle Match.**

## STANDARD PLUS

**Our standard training ammunition.** For many years, the SK Standard Plus has been considered to be a reliable training cartridge by sports shooters across the world. Its versatility in use means it can be used in rifles and pistols. Continuous further development guarantees reliability, precision, and stability in this ammunition segment. Shooters across the world trust this entry-level cartridge for these very reasons.

## OUR PASSION. YOUR SUCCESS.

We'd like to use our products to help you improve your performance. As a sports shooter, you are looking for a cartridge with a reliable performance that ensures you consistently achieve good dispersion patterns and a positive result. The ammunition has a good price-performance ratio and allows you to train intensively in order to reach your personal goals. This means a high level of effort becomes possible during training in order to support your personal development. We regularly service our machines and continuously improve manufacturing technologies, so as to be able to produce ammunition that is precise and reliable.

**Take the plunge. Test our products.**

## PISTOL MATCH

**Especially developed for pistol shooters.** Thanks to the close cooperation with pistol shooters, the Pistol Match developed by SK has improved and progressed continuously. Thanks to many years of experience, the quality continued to improve so as to guarantee the best possible hit performance and function. Countless medals have been won in national and international title competitions. Try out this specially developed short barrel cartridge and enjoy its advantages.

## OUR SUPPORT. YOUR PROGRESS.

**Learning from the best.** The Nammo Schönebeck GmbH isn't just any ammunition manufacturer. We are part of an international corporate group with a long history and extensive experience when it comes to ammunition. Starting with the production of a rimfire cartridge all the way to the science behind firing a good shot. We do everything within our power to make sure you feel good about our products and benefit from the research and development of the entire Nammo Group.

**We want to help you achieve the best possible performance.**

### YOUR BEST SHOT

SK is dedicated to support and serve ambitious beginners and developing shooters to reach their peak potential.

## PISTOL MATCH SPECIAL

**Handgun ammunition for ambitious shooters.**

We offer our successful Pistol Match Special ammunition for the prospective marksman. Manufactured and tested according to strict quality standards, Pistol Match Special delivers higher velocity out of shorter barrels and guarantees outstanding precision and functionality. Whether you are a beginner or an established shooter, with Pistol Match Special you will be in the lead in training and competition.

# FLATNOSE MATCH

The **SK Flatnose Match** is a newly-developed rimfire cartridge especially for rifle shooting at 50 m. The flat projectile tip optimizes ballistic properties, which improves precision. It is characterized by high reliability and optimal hit performance. Whether it is about intensive training or a competition, the SK Flatnose Match delivers exceptional results.

Any goal can be reached with this premium ammunition, manufactured with greatest care and using our top technologies.

**Convince yourself. The SK Flatnose Match.**

# FLATNOSE TARGET

**The new standard cartridge of the SK family.**

The SK Flatnose Target is a new development in our standard line. It has a flattened projectile with improved ballistic properties and benefits from years of experience with developing and producing small caliber ammunition.

This turns the SK Flatnose Target into the right companion for training and competition.

**Stability and reliability. The new SK Flatnose Target.**

# BIATHLON SPORT

**Biathlon Sport is a result** of innovative engineering, and a long history of close co-operation with top biathletes. The bullet has ideal velocity for frigid conditions, and it is designed for optimum ballistic performance, even in tough and windy conditions. The cartridge has a special lubricant designed specifically for perfect performance in freezing conditions. It is effective and reliable energy combined with the finest accuracy.

**The SK headstamp – sign of quality.**

# OUR SHOTS. YOUR FAME.

## Quality for the success-oriented shooter.

SK cartridges keep their promise concerning precision and reliability. We're always working on improving our cartridges and providing you with optimal quality. Furthermore, the good price-performance ratio makes it possible for you to train more intensively, for longer, and more regularly in order to reach your competition objectives.

Choose the right cartridge and achieve top results.

1

CHOOSE  
THE RIGHT  
CARTRIDGE.

2

IMPROVE  
YOUR  
PERFORMANCE.

3

WIN.

# OUR KNOWLEDGE. YOUR SCORE.

Our .22 LR Rimfire Test Center in Schönebeck has the best testing conditions. The 50 m shooting range has modern computer-assisted target and evaluation equipment. A multitude of fixtures make it possible to fixate rifles and pistols in order to find the best ammunition lot for the given weapon. Our cold chamber is able to simulate temperatures of - 20° C also during the summer months, which means it is possible to select the right ammunition for biathlon.

#### ► RIFLE MATCH

A competition cartridge with high reliability and exceptional precision for rifle shooting at 50 m.

#### ► STANDARD PLUS

The all-round training ammunition for rifle and pistol with reliably high quality.

#### ► PISTOL MATCH

A specially designed cartridge to meet the demanding requirements of competitive pistol shooters. It's a rare event where SK Pistol Match isn't found in the gun boxes of the winning shooters.

#### ► PISTOL MATCH SPECIAL

If you prefer a faster ammunition when pistol shooting, choose the Pistol Match Special.

#### ► BIATHLON SPORT

This cartridge was especially developed to maintain its exceptional precision under cold and windy conditions.

#### ► FLATNOSE MATCH

The newly developed rimfire cartridge with flat projectile and optimized ballistic properties.

#### ► FLATNOSE TARGET

The new standard cartridge with flat projectile and improved hit performance.

#### ► LONG RANGE MATCH

Purpose-built for today's long range rimfire disciplines such as PRC, tactical rimfire, long range silhouette and more. Reliably acquire targets out to 100 yards and beyond.

**NEW!**

#### ► SEMI-AUTO

Designed to outperform all other semi-auto ammunition offerings currently crowding the market. It's built to deliver pinpoint accuracy while functioning flawlessly through any semi-auto firearm.

#### ► HIGH VELOCITY MATCH

For demanding 22 LR shooters that prefer lightning-fast velocity in disciplines such as PRS Rimfire and NRL22, High Velocity Match strikes on-target with speed and precision.

#### ► MAGAZINE

The universal training cartridge in the 500 pack. Suitable for pistol and rifle shooters.
