## **ANSCHÜTZ PRECISION RIFLE**

Sprint, next stage, get the rifle in position, aim, concentrate. Hundredths of a second after the shot - the clear sound of steel and then...

**"HIT"**

**ANSCHÜTZ**

EINFACH EINS WERDEN!

## **PRECISION RIFLE SHOOTING EVOLUTION OF PRECISION**

A new shooting sport discipline is taking the international shooting world by storm. PRECISION RIFLE SHOOTING.

Away from static shooting, towards pure adrenaline. On specially marked courses, the shooters shoot dynamically at targets at different distances.

Standing, lying, kneeling, in challenging positions and in between changing the spot in a sprint - this action-loaded sport demands everything from the shooter.

For these reasons, the number of shooters in the PRS scene has been growing rapidly for years.

The demands on a PRS rifle – precision, speed, reproducibility and reliability, these are the core competences of ANSCHÜTZ.

**Our APR rifles –  
the perfect choice for PRS shooters.**

**UNLEASHED ACCURACY**

A close-up, horizontal view of an Anschutz 1782 APR rifle. The rifle features a black scope with a reticle, a black barrel, and a tan-colored receiver with multiple ventilation slots. A person's hand is visible at the bottom left, holding the rifle. The background is a dark, textured surface with a hexagonal pattern.

## 1782 APR

## 1782 APR CARBON GREY - IN THE ACC PREMIER CHASSIS FROM MDT HIGHEST PRECISION AND FUNCTIONALITY = MAXIMUM SUCCESS

The ANSCHÜTZ APR models were developed with one goal - maximum success. This goal is only achieved by the factors precision, functionality and ergonomics as well as the inner will to get the maximum out of every situation, under any circumstances.

With the 1782 APR, you have the right tool at your side. Specially adapted to the requirements of Precision Rifle Shooting. A steel barreled action together with a continuous 20 MOA Picatinny rail - is milled from a solid piece of steel for maximum stability. For the fastest repeating action, the uniquely silky smooth and easy operated bolt action is equipped with a two-row six locking lug - for maximum safety. The connection between shooter and rifle: The 5082 D APR trigger, with an incredible adjustment range and a trigger characteristic breaking like glass. All this embedded in a proven and high quality ACC PREMIER chassis of the MDT brand.

**Maximum details for maximum success!**

Further information about  
the 1782 APR rifles  
can be found here.

- 1 Non-slip rubber butt plate with height adjustment
- 2 Adjustment of the stock length
- 3 Adjustment of the cheek piece
- 4 Generously designed, ergonomic thumb rest
- 5 Bolt handle lock
- 6 Catch, ergonomically positioned and easy to operate Bolt stop
- 7 Picatinny rail with 20 MOA pre-tilt, milled directly into the receiver
- 8 Generously designed ejection port for reliable ejection and fast reloading
- 9 DLC or TIN coated bolt breech

## DLC COATING

The DLC coating (Diamond like Carbon) has the typical properties of diamonds. Due to its extreme surface hardness, the DLC coating is ideally suited for heavily stressed components and at the same time provides maximum sliding properties - and is therefore perfectly suitable for this ANSCHÜTZ 1782 APR bolt.

# 1782 APR PRODUCT INFORMATION

Approx.

6.920 g 750 - 1.200 g

Weight of barreled action: .....Approx. 4.370 g

Weight of stock: .....Approx. 2.550 g

.308 Win. ....Item No.: 017101

**Or let us know your desired configuration!**

**See page 12 - 13 and 23.**

## 1782 APR FLAT DARK EARTH - IN THE ACC PREMIER CHASSIS FROM MDT BALANCED IN WEIGHT, FOCUSED ON THE TARGET

Finding the right balance - no problem with the 1782 APR. The 1782 APR barreled action is equipped with a heavy 660 mm precision barrel and weighs 4.370 g. This solid barreled action is bedded in the ACC PREMIER chassis, which can be optimally balanced thanks to numerous attachment options. This has the advantage of significantly reducing recoil, which leads to better target focus. The solid and well-balanced overall weight of the 1782 APR is crucial for both fast and agile switching between stages and ensures a steady gun mount.

**1782 - a balanced overall package!**

CERAKOTE

Gold colored TIN-coated bolt breech

Cerakote coated bolt knob

Coated MDT stock,  
Flat Dark Earth

Further information about  
the 1782 APR rifles  
can be found here.

## TIN-COATING

TIN is a metallic hard material of typical golden yellow color. The material is characterized by very high hardness and corrosion resistance, resulting in a number of technical applications, such as low friction and high wear resistance. Perfect for the ANSCHÜTZ 1782 APR bolt.

Cerakote coated receiver and barrel

Shown with optional equipment. Bipod, scope, mount and muzzle brake are not included in the scope of delivery!

**ANSCHÜTZ**

EINFACH EINS WERDEN!

## CERAKOTE ON RECEIVER, BARREL AND BOLT KNOB

The ceramic-based surface coating is proven around the globe to protect high-quality metal parts from corrosion, dirt and scratches.

Extreme heat, cold, as well as chemical stresses such as oils or similar cannot harm this protective coating.

The matt finish of the CERAKOTE and the TIN-coated barreled action parts result in a grandiose appearance.

Optionally configurable, see page 12.

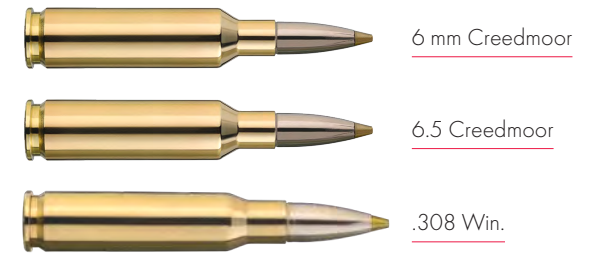

**CERAKOTE**

## 1782 APR STEEL RECEIVER MADE TO WITHSTAND

Barreled action made from steel. Purity and quality - classically blued. Securely bedded in the stock for outstanding shooting performance. Sturdy and resistant to heat and cold. Highly-precise surfaces that display in design and allow the bolt to slide internally without any resistance. A reliable companion with impressive precision and function. Timeless perfection! The integrated Picatinny rail enables flexible, simple and solid rifle scope mounting - even with attachments.

Muzzle diameter 23,5 mm, barrel thread M18x1 with thread protector

ANSCHÜTZ 660 mm Precision barrel

## 1782 BOLT MOVEMENT FOR FAST CYCLING

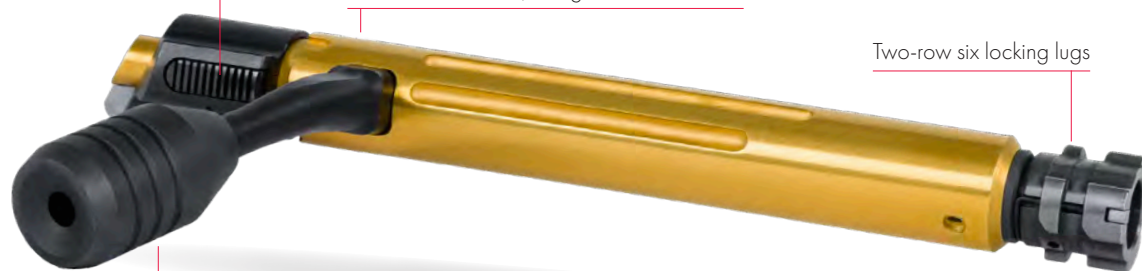

A bolt movement, that inspires again and again. DLC- or TIN-coated bolt breech is individually paired to the action, achieving a smooth cycle of the bolt. Corrosion protected. Six locking lugs - a reliable, durable detail for maximum safety.

Bolt handle lock

DLC or TIN-coated, fine ground bolt breech

Two-row six locking lugs

60° bolt throw

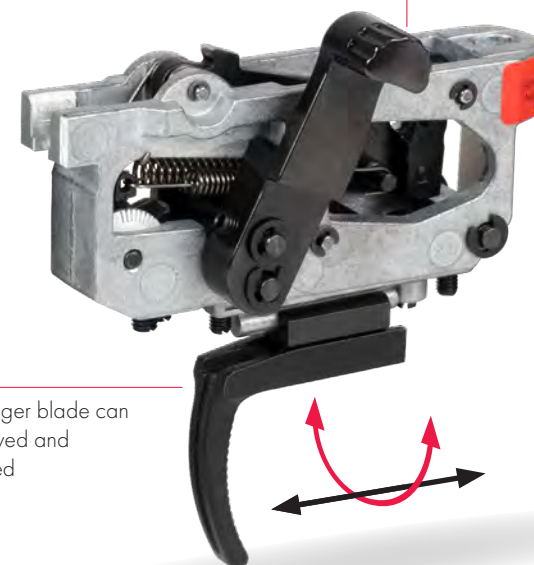

## 1782 APR TRIGGER THE PEAK OF ANSCHÜTZ COMPETENCE

Precision and refinement from high-performance sports - in summer and in winter. Adjustable trigger weights and adjustable as two stage or direct trigger. The location in the rifle with the decisive moment - high-precision parts in harmony in the tightest of spaces. For a single task! The perfect harmonization between shooter and rifle.

Unparalleled. ***There is nothing better.***

- Adjustable match single stage trigger 5082 D APR, set in factory to 1.100 g, adjustable from 750 – 1.200 g
- Ergonomic and fast operating safety catch
- The serrated trigger blade can be moved and swiveled
- The trigger characteristic can be changed from single stage to a two stage

Sliding safety catch

The trigger blade can be moved and swiveled

## 1761 RECEIVER

### TO IGNITE YOUR PASSION, ANSCHÜTZ PROVIDES THE SPARK.

The foundation of our high precision rests on the barreled action design. Geometry inspired by our target rifles, with a high degree of rigidity, a flat supporting surface and an integrated recoil lug. The precision action is manufactured by highly demanding production processes and with gunsmiths expertise. The well engineered integrated ejector can be easily exchanged if needed. The brilliant matt surface lends the model 1761 APR a timeless appearance, which will continue to look excellent even for many years to come. This overall package is rounded off with a factory-supplied Picatinny rail with 30 MOA pre-tilt.

## 1761 BOLT RUNS EASY AND QUICK

The small bearing reduces the force needed to open and to close the bolt. Fast and easy repeats are possible. Symmetrically arranged three-lug locking mechanism for the highest safety and phenomenal precision. Simple disassembly for care and cleaning. The high-quality and resistant QPQ coating ensures additional sliding capacity, resistance to wear, and corrosion protection and is therefore perfectly suited for the demanding PRS disciplines and harsh weather conditions.

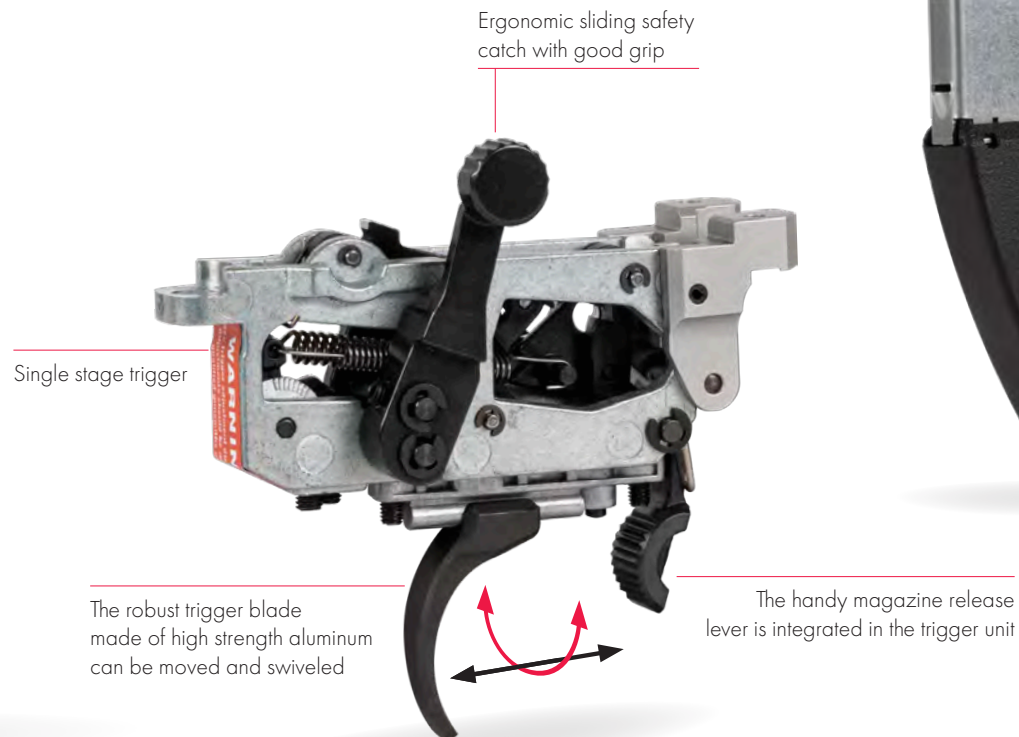

## 1761 TRIGGER OUR TRADITION

It doesn't matter which kind of trigger you need, whether single stage or two stage, which aiming position is preferred or required, whether prone, sitting, kneeling or freehand standing:

With this trigger for the model 1761, you will find the perfect interface between you and your 1761 APR small bore rifle, adjustable from 750 - 1.200g, set in factory to 750g.

***There is nothing better.***
