ANSCHÜTZ MERCHANDISE 80

ASSOCIATED WITH HUNTING **SINCE 1856**

"Creativity" is the result of curiosity applied to a subject or task.

"When a new rifle is created at ANSCHÜTZ, there will have been dozens of creative moments and hundreds of decisions on the path to perfection. This can never be the work of just a single person - it is teamwork in perfection. Absolutely unthinkable without the curiosity and motivation of each and every co-worker!

Every one of them is a competence center at ANSCHÜTZ.

Even though we are justifiably very proud of the finished product: In principle, the route taken is the more important part. You can only achieve the goal yourself, in the process we always re-learn something and learn something new. The goal, however, sometimes has something final about it, and is thus "uncreative".

I would like to thank our employees for their creativity!
And I would like to hope that you can detect how much creativity has been realised in our hunting rifles!"

Maximilian Anschütz

NEW

1782 Gold Line

A close-up photograph of an Anschutz 1782 rifle. The rifle is positioned diagonally across the frame, resting on a piece of rough, textured bark. The barrel is black and extends towards the right. The receiver is black with a textured, ribbed section. The stock is made of wood with a checkered pattern. The background is dark and out of focus.

ANSCHÜTZ

EINFACH **EINS** WERDEN!

1782

"The continuous development and optimization of our products has the highest priority. The latest development in our hunting rifles is the 1782 Black Line model, which impresses with an even smoother bolt movement - see for yourself!"

„GOOD HUNTING!“

NEW

1782 Black Line

1782

THE NEW DAY

The sky is reddening. Remnants of night-time grey, pale yellow. The morning dew hangs in the air and coats the wood on the hunting stand. Hoping for the first quarry.

An owl heard hours ago, a woodpecker hammers in the distance. The twilight is filled with waiting.

There! A branch moving against the wind! No rapid movement at all – not a word, no noise of any kind! Get your rifle. Time expands. Carefully change your position.

The game shows itself.

Aim. Release the safety catch silently, completely silently. Very good rifle! The correct choice. High-tech without pomp and grandeur, straightforward design, precise and rapid action. The eye looks through the scope, the finger on the trigger senses the two stage. Infinitely fine trigger adjustment. The stock radiates an intimate feeling and transfers to the body.

Waiting becomes concentration.

NEW - 1782 BLACK LINE **UNIQUE BOLT MOVEMENT**

The 1782 Black Line is characterized by deep black DLC (Diamond Like Carbon) coated components. With the Classic PRO stock made of beautiful walnut and the height-adjustable black comb, you get an elegant and timeless overall package that is rounded off with a robust driven hunt magazine. The breech case, the trigger blade and the bolt knob are DLC-coated. The DLC coating gives these components a surface with excellent sliding properties and incredible hardness. This combination makes these highly stressed system components robust and resistant, and at the same time gives the bolt movement its unique, silky smooth and brilliant characteristics!

***This bolt movement is unique,
see for yourself!***

Black

Line

- 1 Non-slip rubber recoil pad
- 2 Black, adjustable comb
- 3 Bolt handle lock
- 4 Sliding safety catch
- 5 Deep black DLC coated breech case
- 6 Barreled action milled from solid with integrated Picatinny rail
- 7 ANSCHÜTZ 470 mm Precision barrel

1782 Black Line Models

Black Line configurations are always delivered in a Classic-Pro stock with a height-adjustable black comb and a 5-shot driven hunt magazine*. Available in all calibers and barrel lengths as a right-hand version.

Shown: Model 1782 Black Line, caliber .308 Win., 470 mm barrel and barrel thread M15x1.

*For caliber .300 Win. Mag. 3-shot driven hunt magazine

1782 Black Line components

The individual Black Line components trigger blade, bolt knob and breech case (only for right-hand versions) can be configured for new orders at any time in other stock versions, so that you can also benefit from the uniquely smooth bolt movement in the thumbhole stock, for example. See pages 12-13 for more information to each Black Line component.

NEW - 1782 GOLD LINE

EXCLUSIVE REFINEMENT, MAXIMUM DURABILITY

The 1782 Gold Line radiates elegance, individuality and impresses with its exclusive appearance. The gold-colored components are titanium nitrided (TIN). This optically very attractive titanium nitride is an all-round coating that has been tried and tested for decades thanks to its versatility and balanced properties. The attractive, golden color and the high abrasion resistance of this coating are ideal for the highly stressed components of the breech case, firing pin and trigger blade.

This exclusive overall package is rounded off with an elegant walnut bolt knob and premium wood grade stock, all of which are included in the Gold Line scope of delivery. The 1782 Gold Line can be configured with any stock design, barrel length and caliber.

1782 Gold Line Models

Gold Line configurations are always equipped with a premium wood grade stock and can be configured as a right-hand version in all calibers and barrel lengths.

Shown: Model 1782 Gold Line, German stock in premium wood class, caliber 8x57 IS, 470 mm barrel and barrel thread M15x1.

1782 Gold Line components

The individual Gold Line components trigger blade, firing pin and breech case (right-hand versions only) can be configured with new orders in all stock versions and all wood grade options, so that you can also benefit from the exclusive look of a gold-colored component in the stock version of your choice. See pages 12-13 for more information on each Gold Line component.

1782 BARRELED ACTION REFINEMENTS **EXCLUSIVE COATINGS**

Give your 1782 an individual design and choose your desired coating when ordering. Whether classic silver-colored hard chrome-plated (standard), deep black with high-strength and extremely smooth DLC coating or with the timelessly elegant gold-colored TIN coating. In addition, specially designed trigger blades and bolt knobs are available.

1782 Standard version,

the 1782 models are always delivered with a silver-colored nitrated trigger blade, a black syntetic bolt knob and the hard-chromed, silver-colored breech case.

1782 Gold Line version,

Refine your 1782 with elegant Gold Line components. Whether the trigger blade, breech case, firing pin or bolt knob - configure which components should be TIN-coated when ordering.

13

1782 THUMBHOLE STOCK

A SYMBIOSIS OF STYLE AND FUNCTION

A futuristic design that incorporates the attributes of a classic, provides a relaxed and precise gun mount. In mounted position, there is no uncomfortable tension in the underarm which allows a perfect tension free positioning of the trigger finger. The stock is carefully selected from mature walnut wood. The oil finish provides a matt appearance and helps protect it from the elements.

PRECISE INTERACTION

MADE OF WOOD AND STEEL

1782

COMPLEX AND SIMPLE

Nothing convinces one more quickly and substantially than reduction, simplicity, purism - where nothing distracts and everything is pure concentration, every optical effect, every function. Such as with the ANSCHÜTZ centerfire hunting bolt-action rifle 1782. A hunting rifle that, in essence, consists purely of wood and steel. Unpretentious and simple.

It is only with familiarization that one discovers the complexity of the 1782, and is amazed by its precision of modern engineering. Only then does the admiration increase, the owner's pride radiates in the unpretentious yet highly-complex rifle in his hands.

The 1782. A rifle that radiates calm and imparts competence. Welcomed attributes, so important during the hunt.

When we go hunting.

1782 STEEL BREECH CASE MADE TO WITHSTAND

Barreled action made from steel. Purity and quality - classically blued. Securely mated to the stock for outstanding shooting performance. Sturdy and resistant to heat and cold. Highly-precise surfaces that display elegance in design and allow the bolt to slide internally without any resistance. A reliable companion with unmatched precision and function. Timeless perfection! The integrated Picatinny rail enables flexible, simple and solid rifle scope mounting - even with attachments.

1782 BOLT MOVEMENT

MOVING, SILKY SOFT, PRECISE, QUICK

A bolt movement, that inspires again and again. Hard chrome-plated bolt, finely ground for silky smooth repeat. Corrosion-protected. Six locking lug - a reliable, durable detail for maximum safety.

1782 TRIGGER

PEAK OF THE ANSCHÜTZ COMPETENCE

Precision and refinement from high-performance sports - in summer and winter. Extremely wide adjustment range for the two stage and triggerweight. The location in the rifle with the decisive moment - 50 high-precision parts in harmony in the tightest of spaces. For a single task! The perfect harmonization between man and rifle. Unparalleled.

There is nothing better.

- Adjustable match single stage trigger 5082 D, set in factory to 1.100 g, adjustable from 400 – 1.550 g
- Ergonomic and silent safety catch operation
- The grippy trigger blade can be moved and swiveled
- The trigger characteristic can be changed from single stage to a two stage

1782 PRECISION ANSCHÜTZ GUARANTEED

Before a 1782 leaves our factory in Ulm, each rifle is checked for shooting and safety; and then, the repeater receives the official proof house seal.

Before this can happen, we have already manufactured the 1782 so precisely, and assembled it so meticulously, that we are able to give each rifle a guarantee to take with it to the customer -

the ANSCHÜTZ guarantee of precision!

It means that: Three shots, one after the other, will be a maximum of 1 MOA apart. The decisive factor, that makes the guarantee so valuable, is that: 1 MOA are "enclosed". In other words: The outer edges of the hits on the target are no more than 1 MOA apart from each other!

1 MOA (29 mm)

For the following calibers, we guarantee, for 3 shots, maximum group sizes* of 1 MOA.

.243 Win.	.30-06
6.5 Creedmoor	8 x 57 IS
6,5 x 55 SE	9,3 x 62
.308 Win.	.300 Win. Mag.

Typical 3-shot .308 Win. test fire group at 100 m*. Each rifle is delivered with the original test target and the Quality Control card.

*shot using Premium Hunting Ammunition

1782 MAGAZINE

SIMPLE HANDLING, RAPID EJECTION

The magazine holds three cartridges, is made from sturdy stainless steel and is thus insensitive to dust, dirt and water. Convenient handling of the magazine as a result of the handy magazine base.

The magazine, which is located safely and securely in the magazine guide, is particularly easy to remove. Slight pressure with your index finger on the magazine release lever and the magazine slides out of the magazine guide!

Fast Release!

3-shot magazine included
(with caliber .300 Win. Mag.
2 shots)

5-shot driven hunt magazine
optionally available
(with caliber .300 Win. Mag.
3 shots)

1782 THE STOCKS MAKE EACH RIFLE UNIQUE

Due to its qualities, Walnut is chosen from age old forests, then elegantly sculpted to form a balance between beauty and functionality with non slip checkering. Every stock rewards the senses, all are unique and distinctive.

The rubber butt pad absorbs the recoil and holds the rifle securely in the shoulder when aiming.

- Oiled walnut
- Solid aluminum action carrier with additional recoil lug for precise and sturdy bedding of the steel barreled action
- V-Bedding, an important guarantee for the overwhelming shooting performance
- Magazine release lever integrated in the trigger guard

ANSCHÜTZ 1782

AESTHETIC AND TIMELESS

**UNCOMPROMISING –
THE BEST FOR TWO WORLDS**

ANSCHÜTZ

EINFACH **EINS** WERDEN!

1771

In our world where digital is the main thing, craftsmanship and experience almost seem to be outdated. ANSCHÜTZ guarantees to be always **uncompromisingly traditional** – but still act with the trend of the **modern world**! Ideas are our "software"; experience is carrying us into the future. Values are associated with purpose; we're experts in producing excellent firearms for exacting shooters. So you can proudly say:

„MY ANSCHÜTZ!“

1771

HIGH-TECH MASTERPIECE!

OK. We recognize that calling the 1771 a "high-tech masterpiece" sounds a lot like marketing speak and like we're promoting something. But how else could we describe a rifle that

- hits the target with fantastic precision;
- has an incredibly soft and extremely quick-to-repeat bolt movement;
- works reliably in all wind and weather conditions;
- is the ideal rifle for both hunting and target shooting: Additionally, it's also perfect for training in hunting schools and for use as a training firearm or in a shooting simulator!

So we thought all over that again, before finally realizing: That's right, it's really a "masterpiece". But we like also calling it simply: the **ANSCHÜTZ 1771!**

1771 GERMAN STOCK

BALANCED, AESTHETIC AND TIMELESS

Made from walnut from age-old forests, visually and functionally refined with a non-slip checkering. Hard and deformation-resistant, natural and individual. No stock is the same as any other. The rubber butt pad absorbs the recoil and holds the rifle securely in the shoulder when aiming.

- 1 Slip resistant rubber butt pad, ventilated
- 2 German style stock, made of beautiful grown walnut
- 3 Bolt handle lock
- 4 Sliding safety catch
- 5 Fine-ground bolt with locking lugs
- 6 Picatinny rail, assembled in the factory

- 7 ANSCHÜTZ Precision barrel
- 8 Barrel thread M15x1
- 9 Slip resistant rubber butt pad
- 10 Studs
- 11 Non-slip checkering
- 12 Match two stage trigger 5098/71, 300 – 800 g

- 13 Magazine release lever
- 14 Magazine easy to exchange, made of stainless steel
- 15 Ergonomic thumbhole stock, made of beautiful grown walnut
- 16 DJV-Stock, made of beautiful grown walnut
- 17 Cheek piece, adjustable in height via fast clamping
- 18 Magazine release lever (at DJV, integrated in the stock)
- 19 Magazine easy to exchange, made of stainless steel (at DJV, ends flat with the stock)

1771 THUMBHOLE STOCK

A SYMBIOSIS OF STYLE AND FUNCTION

A futuristic design that incorporates the attributes of a classic. Quiet and precise stop. The trigger finger remains strain-free and movable; it doesn't have to support anything. As for the carefully selected and mature walnut wood: a gentle oil bath gives the stock its matt appearance and protects it from the elements.

EINFACH EINS WERDEN!

1771 DJV-STOCK

AT THE FRONTIER OF HUNTING AND SPORT

Made from beautifully grown walnut wood with the finest oil finish, the stock is specially developed for competitive hunting style shooting. The adjustable cheek piece reduces head tilt and relaxes the neck muscles. The special DJV magazine ends flat with the stock. The fore-end can be held without annoying elements.

What secures success in target and competitive shooting, delivers undoubted safety when hunting. **ANSCHÜTZ 1771: the best for two worlds!**

TRANSFER OF KNOW-HOW AND HIGH CLASS QUALITY

1771

REFINED FINESSE OVER A LENGTH OF 1 METER

When it comes to target shooting, ANSCHÜTZ enjoys the highest reputation. Our rifles are synonymous with unprecedented precision, marksmanship and robustness. They are appreciated by top marksmen over the world.

The ANSCHÜTZ 1771 benefit of all these attributes for hunting and competitive shooting. Equipped with a silky-smooth and customisable 300 g to 800 g trigger weight, the particularly quiet and rapid bolt movement and the cylindrical precision barrel, the 1771 is a hunting rifle that crosses the fields of target shooting and hunting. It meets the needs of both segments.

1771 RECEIVER **A COMPACT STATEMENT**

The lightweight receiver is robust and resistant. Incorporated immovably in the stock for outstanding shooting performance. Sturdy and resistant to heat and cold. With a matt-finished appearance that's timelessly elegant. Equipped with a Picatinny rail - assembled in factory - to make it flexible and versatile. Gas vent holes are an inconspicuous but important detail for your safety.

1771 BOLT **SAFETY FIRST!**

Complete without a gap, for maximum safety: the single-row three locking lug. A reliable and durable element.

1771 MAGAZINE STRONG RESERVE

Extremely comfortable to handle! The magazine holds three, four or five cartridges (depending on the caliber), is made from sturdy stainless steel and is thus insensitive to dust, dirt and water.

ANSCHÜTZ Precision barrel

Recessed muzzle or barrel thread M15x1 with thread protector

Magazine made from stainless steel

1771 TRIGGER A MASTER STROKE

Precision proven many times over from high-performance sports – in summer and in winter. Depending on the trigger, very wide adjustment range of the trigger weight. Ergonomic and silently operated safety catch.

The location in the rifle with the decisive moment: 25 high-precision parts in harmony in the tightest of spaces for a single task – creating the perfect "interface". The interface between human and rifle. Near to unique, and meanwhile adapted by other manufacturers.

There is nothing better.

More than 25 high-precision individual parts

Two-stage trigger 5098/71

Single-stage trigger 5097/2D Tuning

Adjustable trigger blade

Three different triggers can be chosen:

- 5098/71 – Match two stage trigger, adjustable from 300 g – 800 g
- 5097/2D Tuning – Match single stage trigger, adjustable from 450 g - 700 g
- 5097/2D – Match single stage trigger, adjustable from 1.000 g - 2.000 g

Almost a new type of firearm:
the perfect choice for **roe deer**
and **small game** hunting grounds
and, at the same time, ideal for
target shooting and **training**.

**A HUNTING RIFLE FOR
(ALMOST) EVERYTHING!**

1771 **EXCEPTIONALLY INDIVIDUAL**

Stock and barrel, bolt and trigger, receiver and cartridge –
you might think a rifle is, in itself, quite a simple product.

Far from it!

The trigger of the 1771 alone is made up of over 25 components!
It comes in three versions. Three stocks, two barrel lengths ...
the choice of caliber increases the range of configurations
considerably.

Combine your requirements, then you'll end up holding
a rifle that's been configured so it's virtually one-of-a-kind.

The ANSCHÜTZ 1771.

1771 CONFIGURATOR

YOUR PERSONAL 1771 – ACCORDING TO YOUR WISHES!

„Loving where we’ve come from, living for where we’re going and thinking the unthinkable!”

DIETER ANSCHÜTZ

THE SYNTHESIS OF HIGH TECHNOLOGY AND CRAFTSMANSHIP

ANSCHÜTZ

EINFACH **EINS** WERDEN!

1761

Since 1856, over the course of six generations, we have paired available knowledge with newly-obtained scientific understanding. We generate **trust**, we generate **reliability**, we generate **precision**. All of this, so you can stand up proudly and say:

"MY ANSCHÜTZ"

1761

THE FIRST SHOT

You pick it up, and at once you feel:

This small-bore rifle is something else!

At this moment, you probably won't think immediately about the gunsmith in his studio and about the time spent in **polishing metal components**; maybe you don't know anything about the care with which the technician **lapped** and **honed** the barrel, but the matte surface, the perfectly soft gliding head of the bolt, and the **closed** connection of the stock and framework formed by the hidden thrust bearing will captivate you.

You will likely not even feel the small bearing, the four millimeters of steel support in the interior of the bolt, in which the three-lug locking mechanism ensures a self-centring closure in the action, but you will certainly notice the smooth repeating speed of the 1761.

***The way you become one with the 1761
will trigger a smile: My rifle!***

You won't want to put it down.

1761 THUMBHOLE STOCK

THE COMPLEX MADE SIMPLE – PRECISION IN PERFECTION

The thumbhole stock. The eye-catcher when it comes to optical and functional advantages. Light walnut, oiled with satin finish; the trigger finger is free to act without being burdened. The milled recesses lend the 1761 in the thumbhole stock a futuristic look, which will maintain its good appearance for many years to come!

- 1 Non-slip rubber butt pad
- 2 Ergonomic walnut thumbhole stock, oiled with satin finish
- 3 Integrated groove for optic recoil lug
- 4 Sliding safety catch
- 5 11mm-ANSCHÜTZ prism rail
- 6 Interchangeable ANSCHÜTZ precision barrel
- 7 Recessed muzzle

- 8 Classic ambidextrous walnut stock, oiled with satin finish
- 9 Non-slip checkering in new design
- 10 5-shot magazine, easy to exchange
- 11 Magazine release lever
- 12 Trigger guard made of high strength molded polymer
- 13 Single stage trigger 5061 D Heavy, 800g - 1.200g
- 14 Studs

1761 CLASSIC **WELL-BALANCED**

The well balanced and ambidextrous lacquered walnut stock. Looks traditional – looks good. For the right-handed shooter, for the left-handed shooter. Straight-forward, effective, low in vibration, well-balanced. Laser-cut, weather-resistant checkering for optimal grip. Shock-absorbing, non-slip rubber butt pad.

Also available as a right-hand version.

1761 FL MONTE CARLO

ELEGANT AND ERGONOMIC

Matt oiled walnut stock with schnabel fore-end tip, pistol grip and laser-cut checkering for a secure grip even in wet conditions. The roll-over cheek piece for a perfect and comfortable position of your head when aiming.

- 1 Non-slip rubber butt pad
- 2 Ergonomic Monte Carlo stock made of beautiful grown oiled walnut with roll-over cheek piece
- 3 Integrated groove for optic recoil lug
- 4 Sliding safety catch
- 5 11mm-ANSCHÜTZ prism rail
- 6 Rear sight with three inlaid yellow luminous dots
- 7 Interchangeable ANSCHÜTZ precision barrel
- 8 Red pearl front sight out of polymer with protection hood, adjustable in height
- 9 Inner thread M12x1
- 10 Two stage trigger 5061 Light, 250 g - 450 g
- 11 Classic ambidextrous walnut stock, oiled with satin finish
- 12 Non-slip checkering in new design
- 13 Trigger guard made of high strength molded polymer
- 14 Single stage trigger 5061 D Heavy, 800 g - 1.200 g
- 15 Magazine release lever
- 16 Detachable 5-shot magazine, easy to exchange
- 17 Barrel with integrated sound moderator

Model 1761 FL Monte Carlo, caliber .22 l.r.

Barrel length 584 mm, two stage trigger 5061 D Light 250 - 450 g,
Total length 1.035 mm, total weight approx. 3.100 g

Item No.: 015279 (Right hand version)

1761 WHISPER – ONLY AVAILABLE IN .22 l.r. **SILENT TRUST**

Whispering, quiet and silent. Stainless steel, accuracy craftsmanship, easy handling. Radiate silence, convinces all along the line. With low noise, highest precision and with little damage to the game or pelt, this rifle is well suited for urban areas.

1761 MP R MULTI PURPOSE BEAVERTAIL **FLEXIBLE FOR HIGHEST PRECISION**

Developed from the needs of shooters from the range and the field, this stock combines the advantages of a classic target stock, combined with the wide and easy to handle beavertail forend. The integrated aluminum rail in the forend makes this stock a great overall package. Stained walnut with stippled checkering at pistol grip, prepared for attaching a butt plate carrier and can therefore be flexibly adjusted in length.

- 1 Non-slip rubber butt pad
- 2 Prepared for attaching a butt plate carrier
- 3 Stained Multi Purpose Beavertail stock made of beautiful grown hardwood
- 4 Integrated groove for optic recoil lug
- 5 Sliding safety catch
- 6 11mm-ANSCHÜTZ prism rail
- 7 Interchangeable ANSCHÜTZ precision barrel
- 8 Reinforced, recessed muzzle with groove for attaching a front sight
- 9 Stippled checkering
- 10 Wide and easy to handle beavertail forend with integrated aluminum rail for accessories
- 11 Lacquered stock made of beautiful grown walnut with stippled checkering
- 12 Match two stage trigger 5061 Light, 250g - 450g
- 13 Trigger guard made of high strength molded polymer
- 14 Magazine release lever
- 15 Detachable 5-shot magazine, easy to exchange
- 16 Grip and forend with stippled checkering and integrated aluminum rail for accessories

Model 1761 MP R Multi Purpose Beavertail, caliber .22 l.r.

Barrel length 544 mm, Match two stage trigger 5061 D Light 250 - 450 g
Total length 970 mm, total weight approx. 3.500 g

Item No.: 015539 (Right hand version)

Total length 950 mm, total weight approx. 4.000 g

Item No.: 015540 (Right hand version)

1761 MS R THE SPORTING RIFLE

The ANSCHÜTZ small bore rifle for shooting on metal silhouettes and targets. Receiver with an 11 mm ANSCHÜTZ prism rail and grooved barrel for attaching a front sight, so you can also shoot with sight set. Anatomically designed stock with cheek piece especially made for these disciplines. With non-slip and adjustable rubber butt plate and aluminum rail in the forend. The stock is prepared for the assembly of a butt plate carrier – to adjust the stock in length. Stippled checkering on pistol grip and forend.

FROM HERE TO THERE. BECOME ONE.

RELIABLE. DISTRACTION FREE. 1761

1761

FIND REPOSE

Shooting is a complex, contradictory act, but ultimately, in the core of its being, it forces the shooter to re-examine himself.

LOOK INWARD – BREATHE – STAY STILL – FEEL – CONCENTRATE ... the actual triggering of the shot is almost of secondary importance.

On the following pages, you will experience the 1761 in its full range of detail. You will see the interplay of cleverly devised components produced with devotion and tested with meticulous attention to detail.

The ANSCHÜTZ 1761.

1761 RECEIVER

WHAT TURNS YOU ON. EVERYTHING THAT MAKES A ANSCHÜTZ.

The foundation of our high precision rests on the barreled action design. Geometry inspired by our target rifles, with a high degree of stiffness, a flat supporting surface and an integrated recoil lug. The precision action is manufactured by highly demanding production processes and with gunsmiths expertise. In the action integrated well engineered ejector can be changed very easily. The luminous matte surface lends the model 1761 a timeless appearance, which will continue to look excellent even for many years to come.

1761 BOLT RUNS EASY AND QUICK

The small bearing reduces the force needed to open and to close the bolt. Fast and easy repeats are possible. Symmetrically arranged three-lug locking mechanism for the highest safety and phenomenal precision. Simple disassembly for care and cleaning. The high-quality and resistant QPQ coating ensures additional sliding capacity, resistance to wear, and corrosion protection, and thus is perfect for use in hunting and for harsh weather conditions.

1761 TRIGGER OUR TRADITION

It doesn't matter which kind of trigger you need, whether single stage or two stage, which aiming position is preferred or required, whether prone, sitting, kneeling or freehand standing:

With four different triggers for the model 1761, you will find the perfect interface between you and your 1761 smallbore rifle.

There is nothing better.

1761 BARREL VERSIONS

EXPERIENCE LEADS TO PRECISION

The 1761 modular system offers the perfect barrel versions for every application. If you need a heavy precision barrel or classic hunting barrels in different lengths - we have what you looking for.

Following barrel versions for your perfect configuration:

- Heavy precision barrel, 21.4" (544 mm) grooved, with reinforced muzzle
- Two different muzzle threads ½" - 20 UNF und ½" - 28 UNEF
- Precision hunting barrels in different lengths
23" (584 mm) with open sight (FL) and inner thread M 12x1
20.3" (515 mm) without barrel thread
20.3" (515 mm) with barrel thread
18" (457 mm) with barrel thread
14" (356 mm) with barrel thread
- Hunting barrel with open sight (FL)
20.3" (515 mm) with inner thread M 12x1
- Barrel with integrated sound moderator (only .22 l.r.)
19.3" (492 mm), the integrated sound moderator is easy to disassemble and to clean

If you would like to change the caliber, the barrel can be easily altered by a qualified gunsmith. Thanks to its two tenon locking clamps, the barrel clamping allows for the barrel to be re-inserted with perfect precision - every time.

1761 OPTICS & ASSEMBLY

THE LINK

The 11 mm ANSCHÜTZ prism rail integrated in the case enables the flexible mounting of a wide variety of optics. The integrated support in the prism rail offers maximum stability and repeatability when mounting our optional 1761 Picatinny rail.

10-Shot

1761 MAGAZINE

STRONG HANDLING

The single-row 5 or 10-shot magazines with a robust stainless steel housing can be changed extremely quickly and easily. This is made possible by the release lever integrated in the trigger in combination with the extended magazine base. The magazine base is made of high-strength and weather-resistant synthetic.

5-Shot

TRADITION

THAT MEANS IN CONSISTENCY AND STEADFASTNESS IN
UPHOLDING THE CONCEPT OF „**MADE IN GERMANY**“

Rudolf Anschütz (left)
with plant manager
Hermann Wild (right) at
the development in 1950.

1761 STOCK AND ACTION BEDDING

THE BASE OF PRECISION

The oiled Classic hunting stock with its straight comb is suitable for right-handed as well as left-handed shooters (ambidextrous). The non-slip checkering in new design ensures a sure and stable grip even in rain. The ergonomically designed thumbhole stock made of oiled walnut with satin finish ensures stability in the firing position and a relaxed shooting posture thanks to its roll-over cheek piece and its sharp pistol grip.

The MP R Multi Purpose Beavertail stock, as well as the MS R Silhouette stock are equipped with a stippled checkering. Furthermore, these two stocks are the bridge between the needs of the shooting range and the hunting grounds. The aluminum rail in the forend enables the attachment of accessories, such as a hand stop. These stocks are also prepared for the assembly of a butt plate carrier.

The solid and flat bedding of the barreled action in the stock ensures the highest precision. Just phenomal details.

IMPORTANT SECONDS FOR HUNTING SUCCESS

WITH THE ANSCHÜTZ STRAIGHT PULL BARRELED ACTION

1727 F **STRAIGHT-PULL LEADS TO SUCCESS**

A straight-pull design means minimal movement in operation and, of course, super-fast cycling of the bolt — both advantages are important when hunting.

With the Model 1727 F we have perhaps the fastest small bore straight-pull model on the market. The precisely crafted barreled action is adapted from our world famous biathlon rifles to meet the needs in the field and on the shooting range.

The result: A high end straight-pull repeating rifle with a target pedigree, aimed for the hunting market.

Fast, precise, elegant.

1727 F

1727 F MODELS – THE PROVEN STRAIGHT PULL ACTION **BIATHLON TECHNOLOGY OPTIMISED FOR HUNTING**

Wonderfully balanced German stock made of matt oiled walnut. Classic, timeless ergonomics, compact geometry. Subtle hog-back stock with German cheek piece, distinctive schnabel forearm tip. The finely cut checkering on the fore-end underlines the brilliant shooting and repeating performance of the 1727 F: a rifle for lovers of unusual things as well as for technology enthusiasts.

- 1 Non-slip rubber butt pad
- 2 German style stock, made from aged walnut
- 3 Thumb rest for fast repeating
- 4 Straight pull barreled action in caliber .22 l.r.
- 5 11mm dovetail rail for scope mounting
- 6 ANSCHÜTZ Precision barrel

- 7 ReCESSED muzzle, 18 mm

- Item No.: 014642 (Right-handed, 457 mm/18" barrel thread 1/2"-28 UNEF, caliber .17 HMR)

1727 F RECEIVER

SOLID CORE PIECE

Globally adapted receiver from the biathlon. High-quality coatings: silky smooth (bolt!), particularly resistant (to the effects of weather) and protected against corrosion. Ideal for hunting. The robust receiver carries two 11 mm prism rails for flexible mounting of various hunting optics.

1727 F BOLT FOR THE OLYMPICS

World-famous and winner of several Olympic gold medals at biathlon: the straight pull action. Seven hardened steel balls for a secure lock. The easy-grip, knurled bolt handle, optimised for hunting, enables incredibly fast follow-up shots: The index finger opens - the thumb closes. The movement is made from the wrist, the trigger hand remains on the rifle.

Seven locking-balls mechanism

1727 F MAGAZINE SAFELY INTEGRATED

Securely engaged, the magazine disappears almost invisibly into the stock. Made of weather-resistant steel, the magazine defies dust, dirt and water and feeds loaded cartridges precisely and quickly.

1727 F TRIGGER THE BENCHMARK FOR SPORTING RIFLE TRIGGERS

Finest lapping, low weight, specially hardened: a precision piece of extreme robustness. Fine adjustable trigger weight (90 g to 650 g) for target-oriented interaction of the entire action.

The most important part of the rifle in such a decisive moment: 50 high-precision parts in harmony in the smallest space for a single task - to form the perfect "interface", the interface between man and rifle. Close to unique and meanwhile adapted by other manufacturers.

There is nothing better.

Sliding safety catch

More than 50 high-precision individual parts

Adjustable trigger blade

1727 F ACCESSORIES FOR THE FINISHING TOUCH

Magazine, replacement,
5-shot, caliber .22 L.R.

ANSCHÜTZ Knife,

the blade of the knife is made of cleanly sharpened high carbon steel and hardened according to a secret recipe. It offers a perfect balance between the blade length and the blade height. You will immediately feel this sense of harmony when using the knife. The lightweight quiver sheath made of sturdy synthetic material can be easily attached to the belt with a clip. Two knives can be coupled by twisting the molded button. If you don't like it, you can simply cut off the button.

ANSCHÜTZ cleaning pad for hunting and sporting guns,

soft and cushioning cleaning pad for hunting and sporting guns. With attractive ANSCHÜTZ 1782 motif. Hem stitched in black, prevents parts such as screws from rolling down during maintenance and cleaning work. The pad can also be used as a mousepad.

COMMITTED TO PRECISION SINCE 1856

You can always rely on an ANSCHÜTZ hunting bolt action rifle. Your ANSCHÜTZ rifle will be a reliable companion for you at all times, with unsurpassed precision and functionality. This is what the name ANSCHÜTZ stands for.

Numerous Olympic champions, World and European champions as well as over 97% of all biathletes and target shooters in the whole world trust in this ANSCHÜTZ precision. You too can benefit from over 165 years of experience in the field, which has been incorporated into our hunting bolt action rifle, just as you can benefit from the experience of car manufacturers in racing.

For us hunter at ANSCHÜTZ, our products have long been more than just a daily companion through the hunting year - they are the center of our passion.

**ANSCHÜTZ wishes
you a good hunting.**
