# THE 900 MODEL SERIES

## THE NEW AGE OF SPORT SHOOTING!

Sophisticated technical features and a clear, timeless design are combined in the new 900 model series from Feinwerkbau.

Subject to technical changes and deviations in design. Some of the models are shown with special accessories.  
You can find accessories for our sport rifles and pistols in our accessories catalog or at [www.feinwerkbau.de](http://www.feinwerkbau.de).

## CONVINCING PRODUCT FEATURES

- ✔ The further developed, adjustable absorber unit enables an individual pulse adjustment to the personal needs of the shooter.
- ✔ The Model 900 can be conveniently reloaded - more space for easy pellet insertion.
- ✔ The revised trigger unit has been optimized in terms of force distribution and consists of high-precision components made of HSS steel.
- ✔ The maintenance-free pressure reducer has been redesigned for even smoother system operation and ensures significantly reduced noise during firing.
- ✔ The optimized system bedding with double barrel clamping ensures highly precise groupings.
- ✔ The latest grip adjustment from Feinwerkbau enables almost all desired settings to be made.
- ✔ The sliding prism clamping of the Vario sight allows quick assembly and disassembly of the complete rear sight and is thus ideal for protecting sensitive attachments during transport.

# 900 ALU SILVER

AVAILABLE OPTION  
**900 ALU BLACK**

Design meets precision.

High-quality components combine to create a high-precision air rifle.

A wide range of adjustment options ensure optimum ergonomics.

This creates a new pacesetter in the field of match air rifles!

**Cheek Piece**  
can be moved laterally via fine adjustment in the aiming position - reaction to changed conditions at the shooting range is possible without loss of time

**Further developed absorber unit**  
for individual pulse adjustment

**Match-Diopter**  
swiveling, mounted on a sliding and removable prismatic clamp

**Cocking lever**  
can be swiveled and rotated 360°, can be mounted on right or left side

**Maintenance-free pressure reducer**  
with reduced noise for even more constant system function

**optimized system bedding**

**more space for easy pellet insertion**

**continuous T-slot rail in the aluminum front stock**

**Hand rest**  
height adjustable, swiveling, length adjustable

**revised Match Trigger**  
made of HSS components with excellent kinetic properties

**Anatomically shaped 3D Grip**  
made of beech wood. Three-dimensionally adjustable, longitudinally and laterally adjustable, available in sizes S, M and L

**Buttstock**  
can be easily and reliably set. Adjustment mimic can be converted from right to left (and vice versa) without tools

**Butt Plate X-Line**

## BASIC TECHNICAL DATA

Total Weight Approx.	4.5 kg
Total Length Approx.	1,042 - 1,170 mm
Sight line length	610 - 970 mm
Stock length	745 - 820 mm
Trigger weight	30 - 160 g / 80 - 250 g
Length of pull	275 - 360 mm

# 900 W LAMINATED WOOD ORANGE

AVAILABLE OPTION  
**900 W WALNUT**

The 900 W model combines the unique feel of a wooden stock with the comfortable adjustment options that are otherwise only known from aluminum stocks. The stock made from exclusive woods, together with the optimized system bedding with double barrel clamping offers ideal conditions for the best results.

**Cheek Piece**  
can be moved laterally via fine adjustment in the aiming position - reaction to changed conditions at the shooting range is possible without loss of time

**Further developed absorber unit**  
for individual pulse adjustment

**Match-Diopter**  
swiveling, mounted on a sliding and removable prismatic clamp

**Cocking lever**  
can be swiveled and rotated 360°, can be mounted on right or left side

**Maintenance-free pressure reducer**  
with reduced noise for even more constant system function

**optimized system bedding**

**more space for easy pellet insertion**

**continuous T-slot rail** in the aluminum front stock

**Wooden stock**  
made of walnut or laminated wood orange for unique haptics and ergonomics

**Hand rest**  
height adjustable, swiveling, length adjustable

**revised Match Trigger**  
made of HSS components with excellent kinetic properties

**Anatomically shaped 3D Grip**  
made of beech wood. Three-dimensionally adjustable, longitudinally and laterally adjustable, available in sizes S, M and L

**Cheek Piece and Butt Plate**  
(made of beech wood) infinitely adjustable by means of pinions and racks

**Butt Plate X-Line**

**NEW**

## BASIC TECHNICAL DATA

# 800 MODEL SERIES

## FEINWERKBAU SETS STANDARDS IN SPORTS SHOOTING

Determining air rifle technology for shooting competitions. Feinwerkbau sets standards where quality, functionality, design and accuracy are concerned.

### CONVINCING PRODUCT FEATURES:

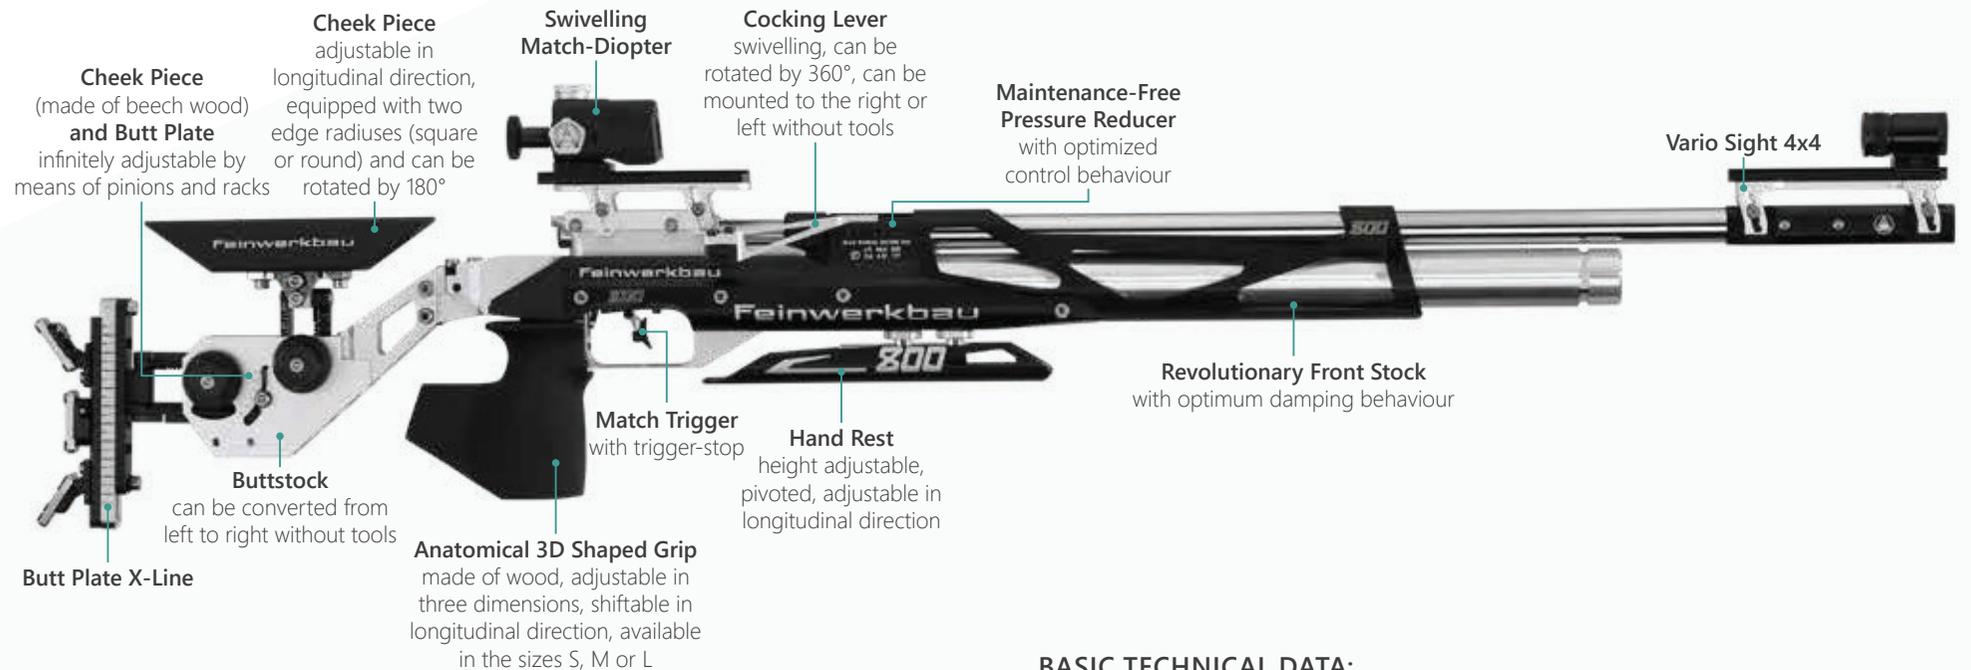

- ✔ The maintenance-free pressure reducer of the 800 series together with the patented Feinwerkbau absorber provide a smooth release of the shot.
- ✔ Visually, the Model 800 captivates with an elegant design with the striking Feinwerkbau lines.
- ✔ On the 800 X model, the butt stock can be converted from right to left without the need for tools. The cheek piece has two contact angles (pointed and rounded) and can be rotated by 180°. This allows the shooter to determine the optimum contact angle for his own needs.
- ✔ Numerous models in the 800 series offer ideal conditions for shooters in all disciplines.

# 800 X BLACK

The model 800 X impresses with well-thought-out product features and numerous setting options. Best conditions for best results in shooting sports.

# 800 - HYBRID

Because of the reorganization of the age groups in the set of rules of the German Shooting Federation (DSB), shooters can now earlier participate in the benchrest disciplines. Numerous shooters take advantage of these new rules and additionally shoot in regular match disciplines. With the hybrid models by Feinwerkbau, you can choose what discipline you want to enter.

The new hand rest allows secure handling of the air rifle in all disciplines. Additionally, all hybrid models come with a multi-adjustable support bar. One rifle – various possibilities – and of course made in the familiar high Feinwerkbau quality.

The following models are available as a hybrid version at attractive conditions.

# 800 X - HYBRID

AVAILABLE IN

2

# SMALL-BORE RIFLES

Feinwerkbau also makes no compromises when it comes to small-bore rifles. Thought-out construction plans and the highest demands in the production of individual parts as well as the long-term experience of our employees lead to high-precision and durable products. But the breathtaking design and impressive shooting performance also create enthusiasm in shooting sports.

# 2800 MODEL SERIES

## FEINWERKBAU REDEFINES SMALL-BORE SHOOTING.

The model series 2800 might have the shortest breech in the match range.

The center of gravity has been shifted significantly towards the shooter

– this allows the model to be easily adapted to your own needs.

Best conditions for prone shooting as well as for all disciplines in

small-bore shooting. Top results while using superb quality

Feinwerkbau products.

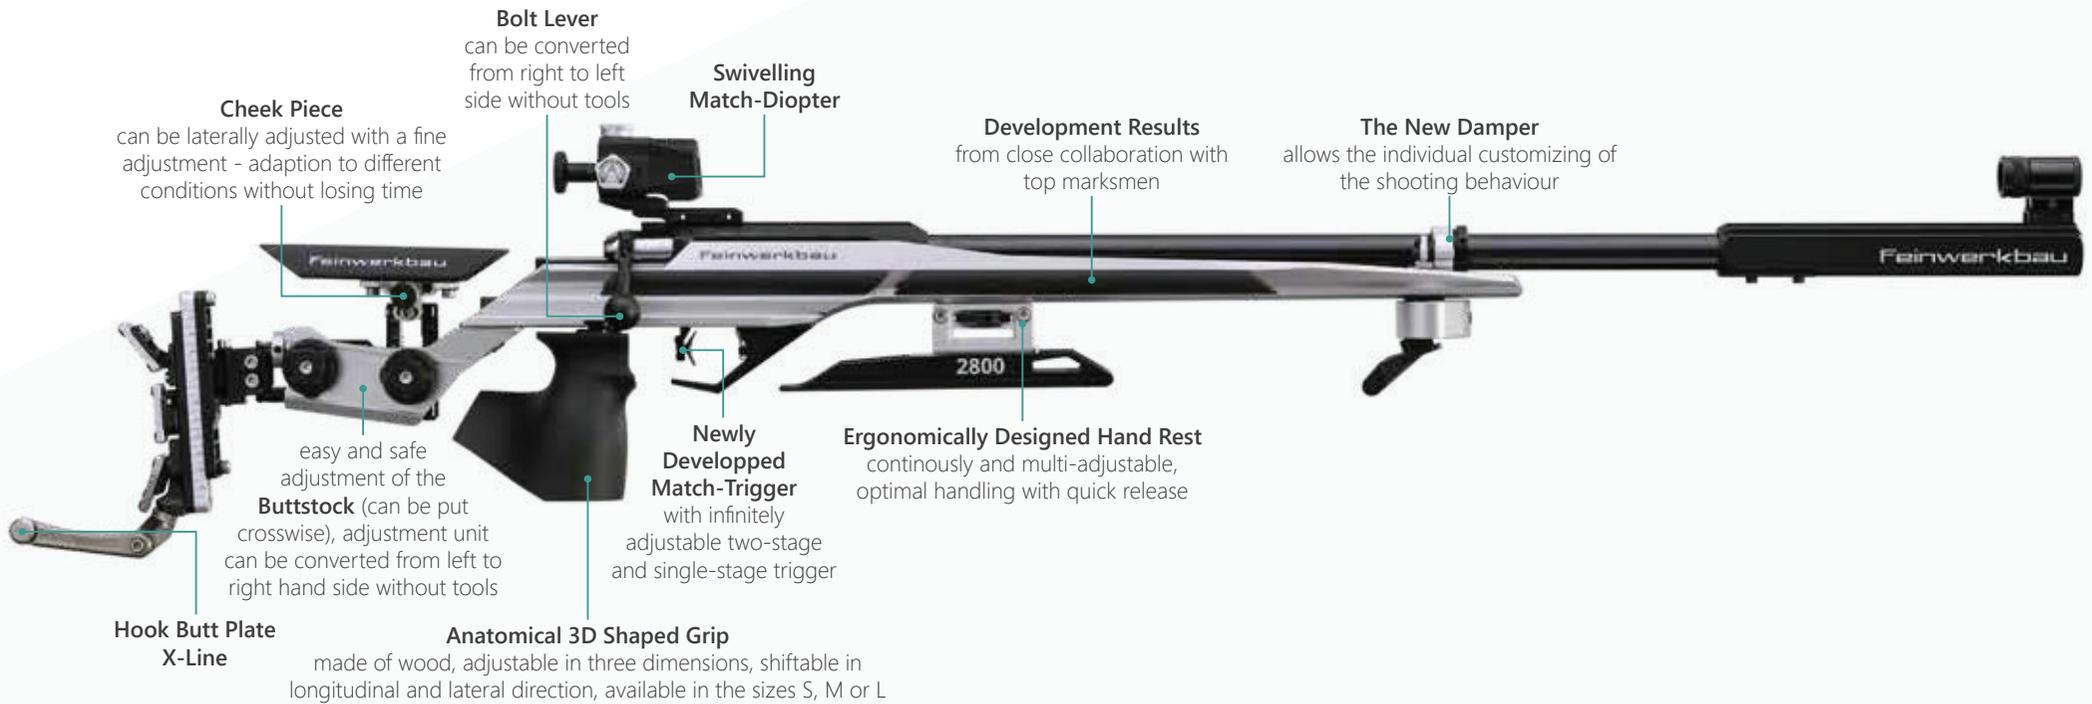

### CONVINCING PRODUCT FEATURES:

- ✓ Revolutionary new precision breech – the bolt on model 2800 was significantly shifted backwards towards the shooter.
- ✓ The bolt lever can be used either on the right or left side of the bolt and can be converted without the need of tools.
- ✓ The center of gravity is close to the shooter's body.
- ✓ The lateral adjustment of the cheek piece in the aiming position is possible with a fine adjustment.
- ✓ The damper ring allows to customize the shooting behaviour.
- ✓ The 3D shaped grip made of wood is adjustable in three dimensions and shiftable in longitudinal and lateral direction.

# 2800 ALU

The model 2800 Alu comes with a precision aluminium stock with numerous setting options – the flagship in the range of small-bore rifles for best results in shooting sport.

## BASIC TECHNICAL DATA:

Total Weight Approx.	5.9 kg
Total Length	1,140 - 1,185 mm
Sight Line Length	650 - 880 mm
Stock Length	800 - 845 mm
Trigger Weight Approx.	60 - 150 g

# 2800 ALU X-CHANGE WITH SEPARABLE STOCK.

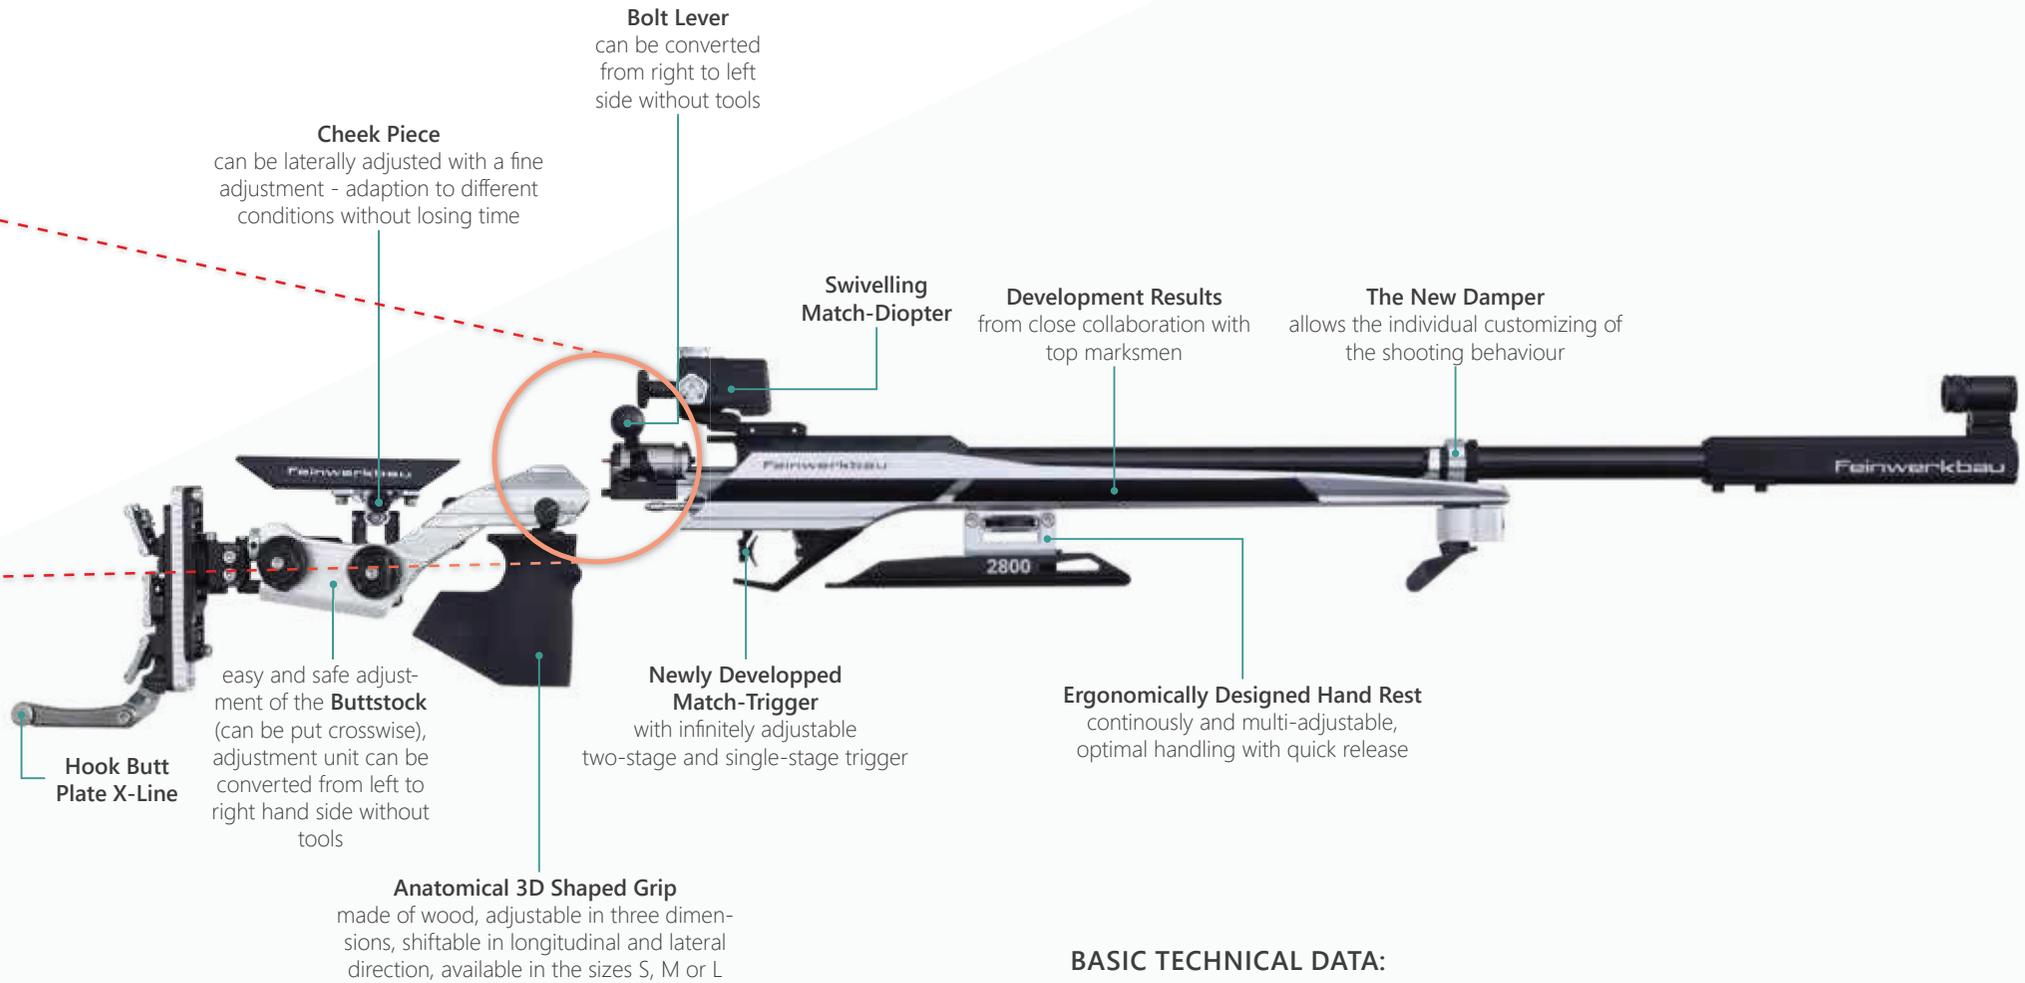

The model 2800 X-CHANGE has the same technical features as the model 2800 ALU (see p. 35). The buttstock on this model can be separated from the front stock and exchanged without tools. The conversion time in the three-position fight is reduced to an absolute minimum – so more test shots are possible during the preparation time in the final!

## CONVINCING PRODUCT FEATURES:

- ✓ The buttstock can be separated without tools from the front-stock at the joint.
- ✓ Grip, cheek piece, butt plate and butt stock can be removed and changed in one piece.
- ✓ Firm hold thanks to an absolutely precise clamp connection.

**Cheek Piece**  
can be laterally adjusted with a fine adjustment - adaption to different conditions without losing time

**Bolt Lever**  
can be converted from right to left side without tools

**Swivelling Match-Diopter**

**Development Results**  
from close collaboration with top marksmen

**The New Damper**  
allows the individual customizing of the shooting behaviour

**Hook Butt Plate X-Line**

easy and safe adjustment of the **Buttstock** (can be put crosswise), adjustment unit can be converted from left to right hand side without tools

**Newly Developed Match-Trigger**  
with infinitely adjustable two-stage and single-stage trigger

**Ergonomically Designed Hand Rest**  
continuously and multi-adjustable, optimal handling with quick release

**Anatomical 3D Shaped Grip**  
made of wood, adjustable in three dimensions, shiftable in longitudinal and lateral direction, available in the sizes S, M or L

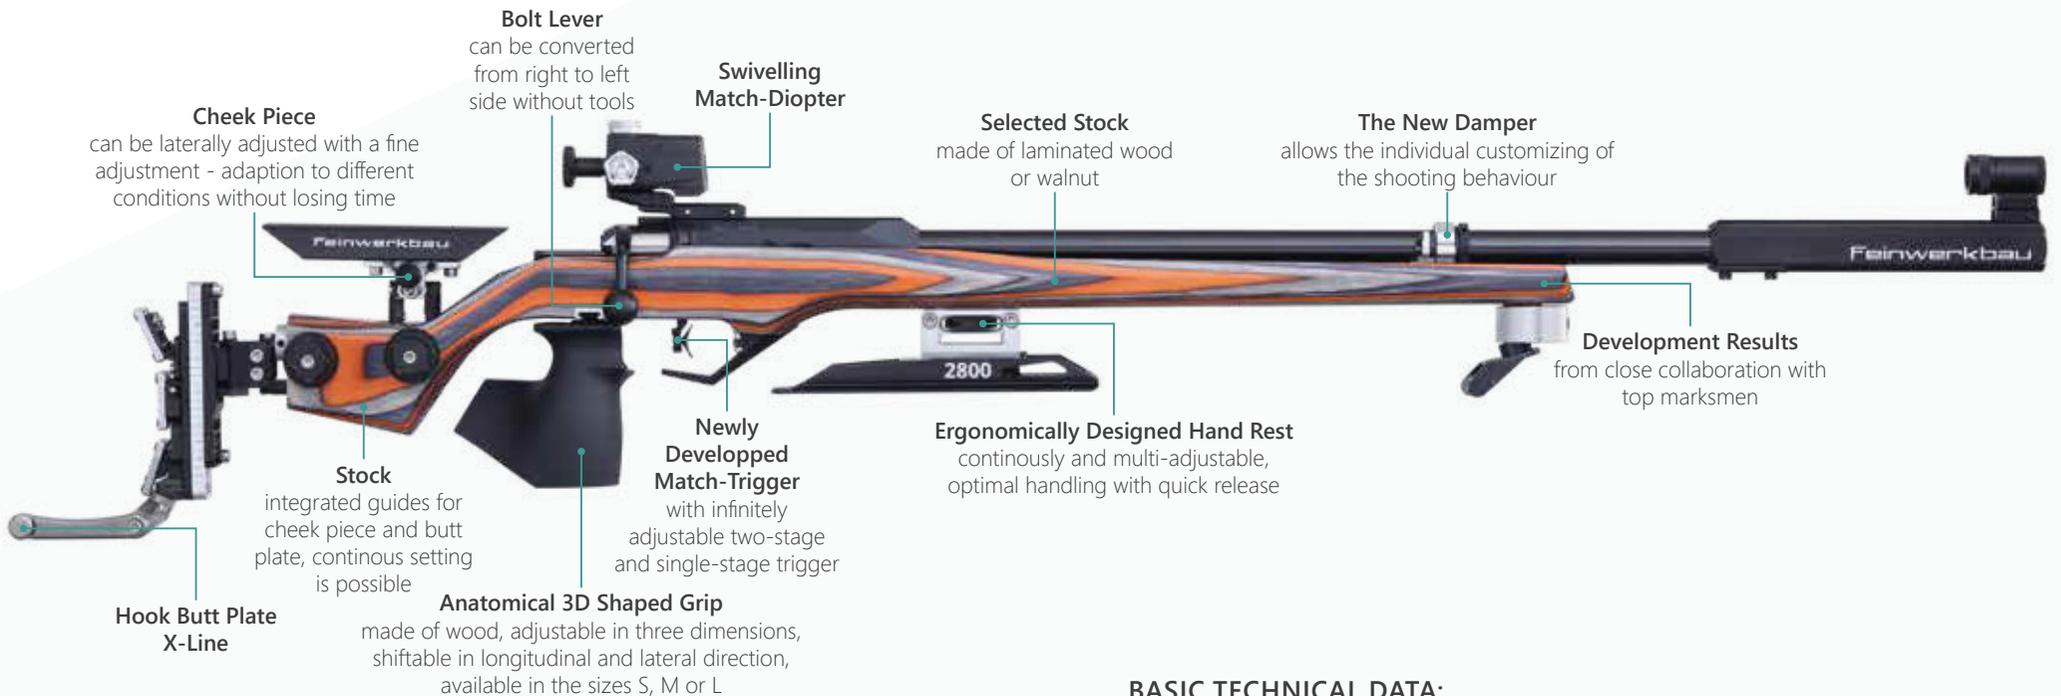

**BASIC TECHNICAL DATA:**

Total Weight Approx.	5.9 kg
Total Length	1,140 - 1,185 mm
Sight Line Length	650 - 880 mm
Stock Length	800 - 845 mm
Trigger Weight Approx.	60 - 150 g

# 2800 W LAMINATED WOOD ORANGE

The model 2800 W combines the advantages of a wooden stock with the comfortable adjustment options of an aluminium stock. A unique feel combined with all the technical highlights of the 2800 series.

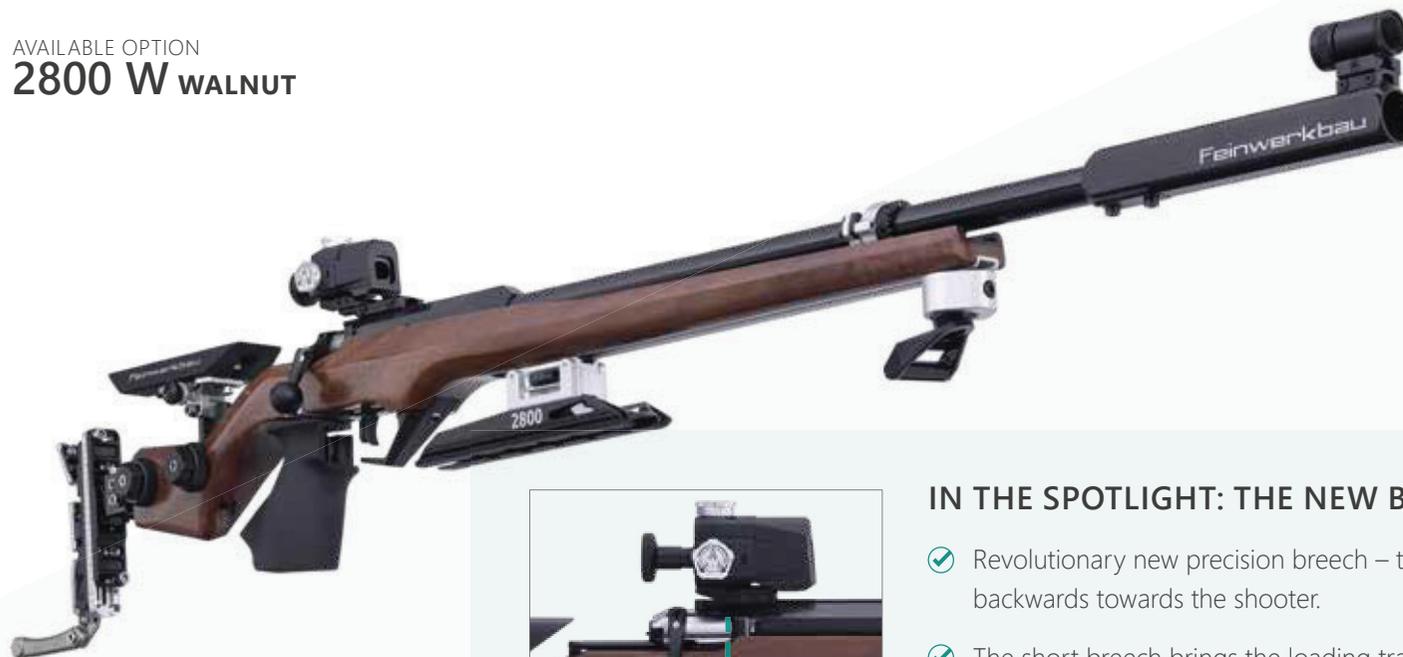

### BASIC TECHNICAL DATA:

Total Weight Approx.	5.4 kg
Total Length	1,140 - 1,180 mm
Sight Line Length	650 - 880 mm
Stock Length	860 - 890 mm
Trigger Weight Approx.	60 - 150 g

AVAILABLE OPTION  
**2800 W WALNUT**

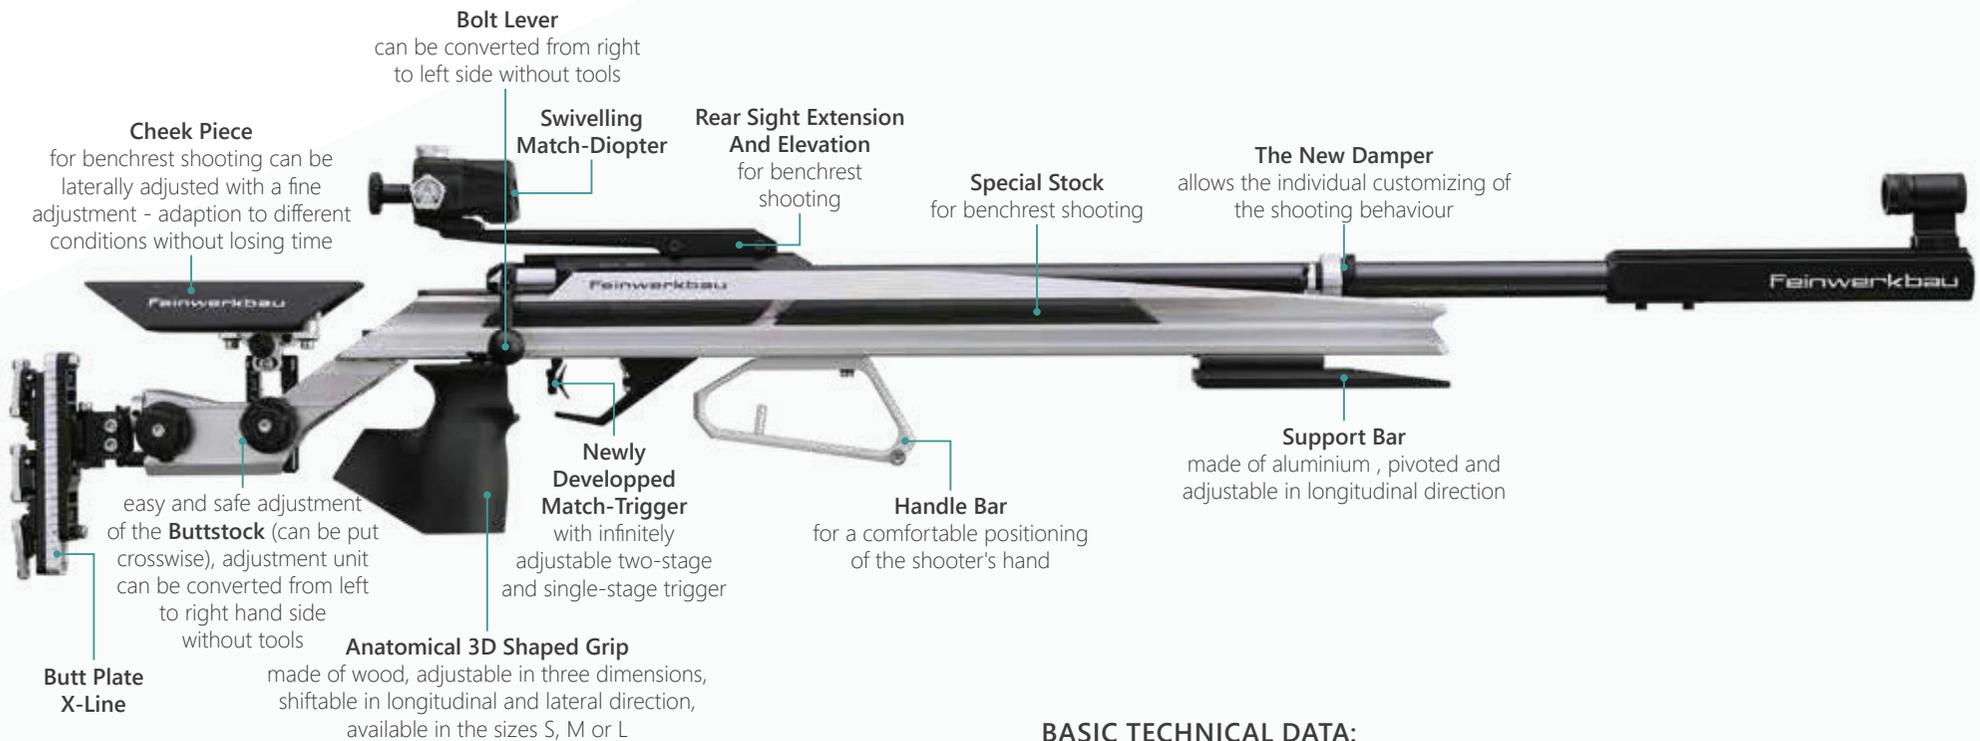

### IN THE SPOTLIGHT: THE NEW BREECH

- ✓ Revolutionary new precision breech – the bolt on model 2800 was significantly shifted backwards towards the shooter.
- ✓ The short breech brings the loading tray directly above the trigger shoe.
- ✓ The breech is guided on two rods which at the same time allow an ideal and comfortable loading situation.
- ✓ Best conditions for prone shooting as well as for all disciplines in small-bore shooting.

# 2800 ALU - BENCHREST

No compromises in the challenging benchrest discipline. The extremely short breech is convertible from right to left without tools. Thus series 2800 can be easily loaded from both sides - only one highlight of model 2800 benchrest.

## BASIC TECHNICAL DATA:

Total Weight Approx.	6.7 kg
Total Length	1,145 - 1,195 mm
Sight Line Length	650 - 960 mm
Stock Length	832 - 885 mm
Trigger Weight Approx.	60 - 150 g

# 2800 W - BENCHREST WALNUT

Also in the wooden stock the model 2800 cuts a good figure. Whether in walnut or laminated wood – maximum precision with a breathtaking design.

# AIR PISTOLS AND SPORTING PISTOLS

We only use the latest technology in the manufacture of our products. High-quality components are made of high-quality raw materials on the latest CNC machining centres. The years of experience and the technical know-how of our employees ensure that our products lead to the best results. Our pistols also impress with the highest quality and stunning shooting performance.

# AIR PISTOL P 8X

## THE TRENDSETTER IN MATCH AIR PISTOLS.

Feinwerkbau makes no compromises with the P 8X model series. The sighting line lies deep in the shooter's hand and the versatile adjustment options leave nothing to be desired. Optimum conditions for the best results in the air pistol discipline.

### CONVINCING PRODUCT FEATURES:

- ✓ Absorber with patented operating principle.
- ✓ The position of the 3-D shaped grip can be adjusted from the outside via set screws without having to dismount the grip from the pistol. The highlight: When changing the grip, the settings are preserved in the grip!
- ✓ The maintenance-free pressure reducer ensures exceptional behavior in the shot!
- ✓ The P8X model series convinces with exceptionally precise groupings.
- ✓ The precision rear sight allows for cant compensation and the rear sight width can be continuously adjusted in width.

# P 8X LAMINATED WOOD ORANGE

The revolution in the field of match air pistols made by Feinwerkbau. Innovative features interacting with high quality materials and a breathtaking design set new standards in air pistols.

AVAILABLE OPTION  
**P 8X WALNUT**

**Rear sight** swiveling for tilt compensation and infinitely adjustable in width

**Dry-Firing Mode**

**Patented Absorber**

**Barrel Sleeve** made of aluminium

**Sight Line** adjustable in length

**Block Front Sight** 4.2 mm wide mounted as standard. As special accessories available of a width from 3.6 to 5.1 mm - as well as raised front sights

**Grip Position** is adjustable via adjustment screws from the outside

**3D Shaped Grip** available in a wide range of sizes

**Vario Trigger-Shoe** made of steel, adjustable three-dimensionally, up to 4 mm adjustable in height

trigger setting possible without removal

maintenance-free pressure reducer

# P 11

Small pistol, big performance. Model P11 convinces with high-quality manufacturing, a great accuracy and the familiar precise Feinwerkbau quality.

## BASIC TECHNICAL DATA:

Total Weight Approx.	0.73 kg
Total Length	345 mm
Sight Line Length	290 mm
Sight Height From Barrel Centre	16 mm
Trigger Weight Approx.	500 g

# AIR PISTOL P 85

THE PERFECT COMPANION FOR ALL AIR PISTOL SHOOTERS IN DYNAMIC DISCIPLINES.

## CONVINCING PRODUCT FEATURES

- ✔ The new design of the 5-shot air pistol combines technical functionality with a breathtaking design and exceptional accuracy.
- ✔ The perfect companion for dynamic air pistol disciplines up to 25 m.
- ✔ The perfect training pistol for the "Olympic rapid fire pistol" discipline. Highest precision combined with significantly lower ammunition costs compared to small bore ammunition.

- ✔ Available in two power versions: 7.5 joules (permit-free in Germany with "F in pentagon") and 11 joules for longer distances.
- ✔ The cocking lever enables comfortable, effortless cocking.
- ✔ Versatile adjustable precision rear sight with coarse and fine adjustment, height and side adjustment, cant compensation and width and height-adjustable rear sight notch.
- ✔ High-precision match trigger: first stage weight, trigger point weight and trigger stop are independently adjustable.
- ✔ Relief holes on the barrel ensure an incomparably smooth shot release.
- ✔ Shots can only be fired when the magazine is inserted, ensuring maximum safety for the shooter.
- ✔ Supplied with 2 compressed air cylinders, 5-shot magazine, 1-shot/training magazine in a high-quality transport case with combination lock.
- ✔ Versatile adjustable Vario trigger blade made of steel  
- three-dimensionally adjustable and height-adjustable up to 4 mm.

# P 85 LAMINATED WOOD ORANGE

AVAILABLE OPTION  
**P 85 WALNUT**

The new 5-shot match air pistol from Feinwerkbau.  
High-quality components, the know-how of three generations and a breathtaking design come together to create a new pace-setter for the dynamic disciplines.

**Rear sight** swiveling for tilt compensation and infinitely adjustable in width

**Cocking lever** for convenient, easy cocking

**5-shot and 1-shot/ training magazine** available

**Barrel Sleeve** made of aluminium

Completely new design from Feinwerkbau for dynamic air pistol disciplines

**Sight Line** adjustable in length

**Grip Position** is adjustable via adjustment screws from the outside

**Magazine slot** for precise positioning of the magazine during firing

Shot can only be fired when the magazine is inserted - therefore maximum safety for the shooter

Available in two power versions (<7.5 joules and 11 joules)

**3D Shaped Grip** available in a wide range of sizes

**high-precision match trigger**

# OPTIONS FOR INDIVIDUALIZATION

## CENTRA PRECISION SIGHTING

On request, we deliver the 900 and 2800 model series ex works with Centra precision sights. The Centra "SPY-long" sight (or "SPY BR" for benchrest rifles) is extremely narrow and compact in design and allows ideal space acquisition for balanced standing freehand and on the bench. The "SPY" series of sights are ideal for shooting in windy conditions and are equipped with a backlight aperture that can also be used as a carrier element for the "Duplex".

The "SPY-long" sight has 24 clicks (approx. 0.2 mm per click at 10 m), the "SPY-BR" has 48 clicks (approx. 0.1 mm per click at 10 m). In addition, the front sight "Centra Score" (or "Centra Score Plus" for benchrest rifles) M22 with a clear front sight is also included. This can be swiveled steplessly around its own axis without tools and enables a pleasantly elegant target image.

## GRIPS, CHEEK PIECE AND HAND REST "MESHPRO"

MeshPro grips are not only a real eye-catcher, they also offer the user clear advantages over conventional grips. Due to the grid structure (mesh) produced in the additive manufacturing process, material and thus weight is saved. In addition to maximum stability, this mesh structure also ensures permanent ventilation of the grips.

The grips are available as right or left version in sizes S, M or L for model series 900, 2800 and P 8X. Already ex works, with the option "MeshPro", you can order your sporting rifle with the set of grip, cheek piece and hand rest in this revolutionary mesh structure on request.

# EVEN MORE INDIVIDUALIZATION? NO PROBLEM!

Upon request, you can order your sporting rifle in one of 13 exciting special anodized colours. This kind of individualization gives your sporting rifle a very special touch, both visually and haptically! Make your model truly unique and cause a stir at the shooting range!

**The following models can be ordered in your favourite colour:**

- 900 ALU
- 900 ALU - BENCHREST
- 900 ALU - HYBRID
- 800 X
- 800 X - BENCHREST
