### 1782 APR Flat Dark Earth

Luxurious details, perfectly matched visually.  
Shown with single stage trigger 5082 D APR, factory set to 1.100 g.

**6 mm Creedmoor | 6.5 Creedmoor | .308 Win.**

Configurable as right-hand version

### 1782 APR Flat Dark Earth Cerakote

Coated for eternity - due to the optional CERAKOTE coating.  
Shown with single stage trigger 5082 D APR, factory set to 1.100 g.

**6 mm Creedmoor | 6.5 Creedmoor | .308 Win.**

Configurable as right-hand version

#### CERAKOTE coating FDE on receiver, barrel and bolt knob

The ultra-hard ceramic-based surface coating protects high-quality metal parts from corrosion, dirt and scratches. Extreme heat, cold, as well as chemical stresses such as oils or similar cannot harm this protective coating. The matte finish of the CERAKOTE coating and the TIN-coated components result in a grandiose look.

Item No.: 017152

#### MDT AICS 10 round magazine

Original MDT magazine made of high strength steel, for caliber 6 mm Creedmoor, 6.5 Creedmoor and .308 Win.

Item No.: 016975

#### Scope of delivery

Model 1782 APR configurations are delivered with a 10-round magazine (AICS), a thread cap and original test fire certificate, delivered in transport rifle case MEGA PLUS.

25 × 80 mm  
**Item No.: 017132**

### One-piece Mount - extended version

The 95 mm long contact surface ensures a secure and play-free fit on every Picatinny rail. Available with ring diameter 30 and 34 mm in 2 different heights, without or with 20 MOA pre-tilt. Locking by means of hexagon nut (T5 series).

**Item No.: 018175**

### ACI-Angle Cosine Indicator

The Angle Cosine Indicator (ACI) is an indispensable sniper tool for long distance precision shots when aiming up- or downhill. The ACI helps you to easily calculate and correct the gravity's effect on your bullet's trajectory.

**Item No.: 018177**

### Bubble Level for ERATAC Universal Interface

Attaches to the right or left side of the Universal interface of our ERATAC mounts. This bubble level improves accuracy and makes sure your rifle is perfectly leveled.

**Item No.: 018178**

### Adjustable Inclination Mount

Adjustable from 0 - 70 MOA with a gradation of 10 MOA each. It is not necessary to remove the scope mount as an adjustment on the weapon is possible. We guarantee 100% repeatability and immediate return to zero.

**Item No.: 018174**

### Offset Adapter with Bubble Level for Picatinny Rails

Clamps to the upper receiver or any Picatinny rail; accommodates either right or left hand shooters. It avoids even the smallest amount of cant.

**Item No.: 018179**

### Two-Piece Ring Mounts

Made of high-grade aluminum and hard anodized in accordance to Mil-Spec. Type III matte black. With hex nuts or self-locking and adjustable steel levers to fit Picatinny rails in spec or out of spec. Available with 30 mm and 34 mm rings with UNIVERSAL interface. All rings are 25 mm wide.

**Item No.: 018176**
